SIXTH ANNUAL CATALOG

GILL BROS. SEED CO.

PORTLAND, OREGON

Route 1.

PHONE TABOR 2683

TO REACH FARM

Take Mt. Hood depot car on Montavilla line to 89th street, thence three blocks East and four North to farm. Our business is all transacted direct from our farm. Phone Tabor 2683.

By drive take Base Line Road to Russellville School, then North one mile to farm or on Sandy Road to Craig Ave., and South one and one-half miles to Barr Road.

FOREWORD

Dear Customers and Readers:

Last season, although times were rather dull, we did three times the business over the previous year and there has been no season since we began the seed business but that we have doubled our trade. In issuing this, our Sixth Annual Catalog, we are better prepared than ever, having grown a large stock of seeds, plants and bulbs to meet our increasing trade.

We grew up in the market gardening business and are applying that knowledge and experience in our seed business. Before buying your seeds, etc., we wish to call your attention to the following statements:

OREGON GROWN SEEDS

Will, on account of their acclimation, give the best results and while we do not contend that all lines of seeds can be grown successfully here, however, there are many that reach perfection in this climate. This is especially noticeable in corn, beans, peas, cabbage, pumpkins, squash, onions and practically all of the root crops. The increase in production from greater vitality and adaptiveness will materially increase your returns, as those who have made comparative trials have readily testified.

Then again, all other things being equal, the fact that we are assisting the development of commercial seed growing in the Northwest, should commend us for your patronage.

FRUIT TREES AND BERRY PLANTS

We now carry a good line of fruit and nut trees, berry plants, etc. These will be found on page 42. Write us for special rates on quantities.

DO YOU WISH TO RECEIVE OUR CATALOG?

Beginning with this issue we will retain no names on our mailing list except those who send us orders, or who write us requesting that their names be retained on our files. This does not apply to new names received during 1916; catalogs will be sent to all of these in 1917. This is not done to influence your orders in any way, but every catalog sent out costs us 7c each and we cannot afford to send out hundreds to parties not interested. If you do not order from us this year and think you will be interested next season, drop us a card and we will be glad to retain your name.

PRACTICAL EXPERIENCE

As market gardeners and the many tests we have made for years, has given us a thorough knowledge of the varieties best suited for our climate, and aside from those varieties which we grow, has enabled us to secure our seed from the best sources. In that respect we differ from the average seed store where the experience used is more from a selling standpoint.

OUR CATALOG

Has been prepared with the desire to have it sensible and free from exaggeration. The cuts used are practically all made from photographs taken from samples grown by ourselves and are reasonable illustrations of the results attained from our seeds. We are opposed to filling our catalog with a long list of worthless novelties and are confining our list to the fewest possible of the best varieties, and introducing only those new sorts which have some added value over older introductions. Those who receive more than one copy of our catalog will confer a favor by handing it to someone interested.

OUR GUARANTEE.

We guarantee our seed to be true to name and will be responsible to the amount of the purchase price of the article. Germination is so dependant upon weather conditions, the time and manner of planting, which are beyond our control, that we do not guarantee this, other than in a fair and proper test, and under such will be responsible for the purchase price only. Under no conditions do we obligate ourselves for the failure of a crop other than has been set forth above.

In no other place does quality count so much as in seeds and the practice of using cheap seeds is poor economy. The desire upon the part of so many farmers for price cutting is largely responsible for the immense amount of worthless, cheap seed that is being sold throughout the country, and when the average farmer realizes that quality is the first and main consideration in seed buying, his demand will force the production of better seed all along the line.

We are not a cheap seed firm and our aim is not and never will be to sell the cheapest seed. Good seed means careful selection and years of work in breeding up. This cannot be done without added expense. If you would produce the best you must plant from thoroughbred stock and after all, the difference between the cost of good and cheap seed does not begin to compare with the difference in the crops.

ABOUT ORDERING

Order Early as there is a heavy demand on some stock and it may be exhausted. **Remittance must accompany order** by money order, express order or bank draft. Stamps will be accepted to the amount of \$1.00, but above this we would prefer money orders, etc. Prices in this catalog by **Express or Freight** do not cover shipping expenses. E. or F. indicates express or freight.

All prices up to and including **One pound** include shipping expenses and for more only when indicated.

Be sure to give shipping instructions and write your name and address plainly on your order sheet.

PLANTING THE SEED

We are fully convinced that much failure in seed germination is due to careless planting, and those inexperienced in garden work are urged to study the culture directions at the heads of the different vegetable lists.

The all too common folly of wet plowing has ruined many crops, for the cloddy, run together, condition of the soil after such work is disastrous to growth of any plant. Planting too early or in damp cold ground will never make for success and should be avoided. Too deep or too shallow planting is often the cause of poor germination and the weather conditions should be studied.

OUR DAHLIAS LEAD

Dahlias are one of our leading specialties and we are now the most extensive growers west of the Mississippi River. We have originated and introduced over thirty new varieties of exceptional merit. Our acclimated bulbs will give 100% better results than Eastern stock. Thousands visited our show gardens last fall, and we wish to extend to all a hearty invitation to visit our farm.

We won the Grand Sweepstake Prize on Dahlias at the National Dahlia Show, Portland, Ore., Sept. 23-25, 1915.

MISTAKES

Unfortunately like all other human beings, we are apt to make mistakes, and if an error does occur, we will consider it a favor to be notified at once so that we can rectify the oversight.

If you have a complaint, tell us first. We do not make a practice of substituting on an order except in case of rush orders when planting time is on, and then the substituted goods are subject to rejection by the customer. Of course, if substitution is requested, we will give as near the goods ordered as possible.

MARKET GARDENERS

Who wish to purchase seed in quantity are entitled to reduced prices and we will be pleased to give them quotations upon their list.

APPRECIATION

We extend to all our customers our thanks for their patronage and wish to express our appreciation to those who have so kindly mentioned our firm to their friends.

Our aim is to give every one a square deal and we hope those who have not yet purchased of us will at least favor us with a trial order.

SCHOOL GARDENS

We wish to encourage the school garden movement and will give a discount on orders placed through any public school.

PARCELS POST

Seeds, plants and bulbs are now covered by the commercial rates, except that all under 8 ozs. are charged 1 cent for each 2 ounces or fraction.

In our desire to give patrons full advantage of parcel post we have made a new departure and now give our customers, who so wish the privilege of **ordering seeds by parcel post at freight prices**, plus the actual postage on their package, figured on one-half pound lots and up. To illustrate our meaning, suppose Mr. Jones of Albany, orders 10 lbs. of corn seed by mail and our freight price is 20c per lb. This is the second zone, or 5c for the first one pound and 1 cent for each additional pound. He should therefore remit us \$2.00 for the corn and 14c postage.

This may be applied to any zone according to the rates. In case, however, that our customers are not sure of the rate and zone, they may send what is certain to cover the postage and we will return stamps for any overrun.

This offer applies only to ½ pounds or more and will be made only where specified by the customer.

PARCEL POST RATES

Weight Limit, to second zone inclusive 50 lbs., above that 20 lbs.

Size Limit, not to exceed 72 inches, found by adding length and girth combined.

Up to 8 oz., 1 cent for each ounce or fraction.

Local Zone, 5c for first pound or fraction over 8 oz., add 1 cent for each 2 lbs. or fraction.

1st Zone, 5c for first pound or fraction, add 1 cent for each pound or fraction additional.

2nd Zone, 5c for first pound or fraction, add 1 cent for each additional pound or fraction.

3rd Zone, 6c for first pound or fraction, add 2 cents for each additional pound or fraction.

4th Zone, 7c for first pound or fraction, add 4 cents for each additional pound or fraction.

5th Zone, 8c for first pound or fraction, add 6 cents for each additional pound or fraction.

6th Zone, 9c for first pound or fraction, add 8 cents for each additional pound or fraction.

7th Zone, 11c for first pound or fraction, add 10 cents for each additional pound or fraction.

8th Zone, 12c for first pound or fraction, add 12 cents for each additional pound or fraction.

Insurance, 5c for full value up to \$25.00; 10c for \$25.00 to \$50.00.

Returned Goods, main package must not be sealed and communications are barred.

DO YOU WISH TO LIVE NEAR PORTLAND

Ten acres of our farm are now offered for sale in one-fourth acre tracts. These tracts are only a five minute walk from good street car service, cars running every seven minutes. A beautiful slightly location, 6 miles east of Portland. Good soil. No building. Price, \$300 to \$400 per quarter. Address our firm.

FIELD SEEDS

We carry a line of Grass, Clover and Grain Seed and Dwarf Essex Rape upon which we will quote prices upon application.

OREGON LAWN GRASS

A splendid lawn grass, composed of the best fine bladed grasses and a suitable quantity of white clover. Price, per lb., postpaid, 45c lb. E. or F., 40c lb. Write for prices on quantity.

White Clover—Price, 70c lb., postpaid.

SUDAN GRASS

This new fodder plant has been very successful in Oregon the past season, where it proved to be a heavy yielder of green feed and was cut for hay by some. While still in the experimental stage we consider it worth trying out. $\frac{1}{4}$ lb., 10c.; lb., 25c., postpaid. By E. or F., lb., 20c. Write for prices on quantity.

12 PERENNIALS, POSTPAID, \$1.00

We will send one good plant of each of the following for \$1.00. Regular price, \$2.15. See pages 40-41-42 for descriptions.

Hardy Aster, Peach Bell, Gaillardia, Phlox, Penstemon, Sweet Rocket, Sweet William, Wallflower, Tritoni or Poker Plant, Telekia, Shasta Daisy, Clustered Bellflower.

REMARKABLE ROSE OFFER

12 Strong 2-yr. Roses, \$1.50, postpaid.

This collection is offered as an inducement for larger planting of our roses. You will be surprised at the value we are giving, 12 strong 2-yr. bushes, our selection of varieties chosen to represent the various colors and all labeled. These roses are worth \$3.00 at regular price.

VEGETABLE AND FLOWER PLANTS

Early Cabbage—Fall sown, wintered over plants, ready in March. Early Jersey Wakefield, Charleston Wakefield, Copenhagen Market and All Head Early. Per doz., postpaid, 20c; 75c per 100. Express or freight, 50c per 100; \$4.50 per 1,000.

Early Cauliflower—Sown in frames. Early Snowball or Danish Giant Dry Weather, 25c per doz.; \$1.00 per 100, postpaid. By E. or F., 75c per 100; \$5.50 per 1,000.

Late Cabbage—Danish Ball Head, Danish Roundhead, Glory of Enkhuisen, and All Head Early. Ready June 1st to August. 20c per doz.; 60c per 100, postpaid. By E. or F., 35c per 100; \$2.75 per 1,000.

Late Cauliflower—Veitch's Autumn Giant, Mammoth White Broccoli, St. Valentine's Broccoli and Early Large White French Broccoli. Ready June 20th. 20c per doz.; \$1.00 per 100, postpaid. E. or F., 50c per 100; \$3.75 per 1,000. Danish Giant Dry Weather, 25c per doz.; \$1.25 per 100, postpaid. E. or F., \$1.00 per 100; \$5.50 per 1,000.

Tomato Plants—Gill's Select Earliana, Bonny's Best and Chalk's Early Jewel. 35c per doz., postpaid. E. or F., \$1.00 per 100.

Pepper Plants—Crimson Giant, Chinese Giant, 25c doz.; \$1.00 per 100, postpaid. E. or F., 75c per 100.

Celery—Golden Self-Blanching. Transplanted, 30c doz.; \$1.25 per 100, postpaid.

Asters—Giant Crego and Branching Asters as listed in this Catalog. 25c per doz.; \$1.00 per 100, postpaid.

Verbenas, Petunias, Sweet Williams, Cosmos, Heliotrope, Marigold, Mignonette, Salvia Splendens, Godetia, Ten Weeks Stocks and Zinnias at 25c per doz., postpaid.

VEGETABLES

ARTICHOKE

Large Green Globe.—The green buds are used. Start in hotbeds. Pkt., 10c; oz., 60c.

***Jerusalem.**—The tubers are used for stock feed. lb., 15c postpaid. E. or F., \$2.00 per 100 lbs.

ASPARAGUS

Set the plants about four inches deep and one to two feet apart in rows four to six feet apart. One year roots are considered the best to plant, although some authorities claim it is best to plant the seed where they are to remain in their permanent bed, thinning them to the proper distance apart. The seed is of slow germination and should be planted early in the spring.

Barr's Mammoth.—Very large stalks with close round heads. Purple-tinted stalks.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 30c.

Palmetto.—Early and prolific with large shoots, of deep green, slightly tinted with purple at the tips of the stalks. This is the standard sort and most generally planted.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 65c, postpaid.

Columbian Mammoth White.—This large stalked strain produces white stalks above the surface.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 30c.

Plants.—We offer one year plants of Barr's Mammoth and Palmetto at 25c per doz.; \$1.00 per 100, postpaid; 2-yr. roots, 40c doz., \$1.25 per 100, postpaid. By E. or F., 75c per 100; \$5.00 per 1000.

BEANS

Bean seed is again scarce this year.

Plant about May 1st for early beans, as soon as the ground becomes warm, in light loamy soil. Large seeded beans require warmer weather to germinate than small beans. Cover from $1\frac{1}{2}$ to 2 inches deep, according to weather conditions. Never cultivate or hoe beans when the foliage is damp from dew or rains, as it will produce rust.

***Challenge Dwarf Black Wax.**—The earliest wax podded bean. Curved pods of medium size, of clear waxy white. Cooks very tender and free from strings. A heavy yielder, which we can recommend.

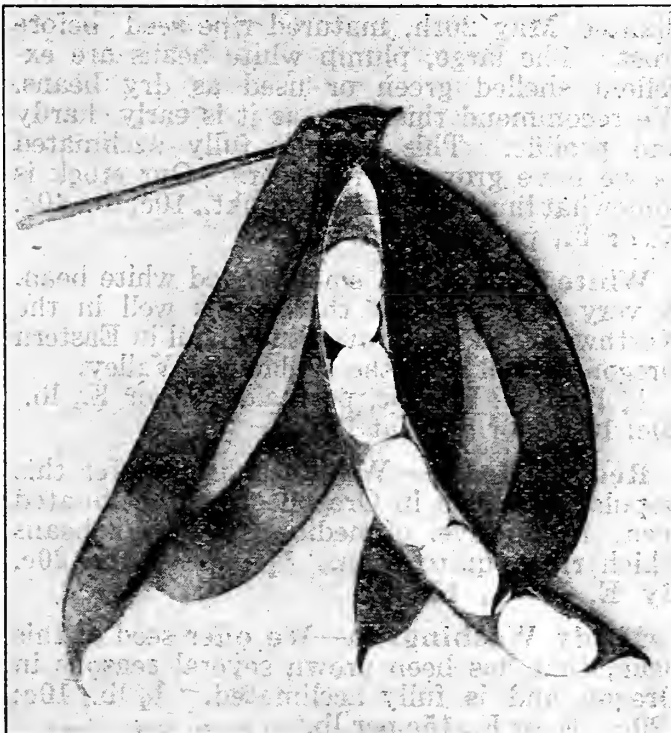

Pkt., 10c; $\frac{1}{4}$ lb., 15c; lb., 30c. E. or F., lb., 25c. 10 lbs at 20c.

***Gill's Reliable.**—Twenty-five years ago our family received a few beans of a resident of Portland and it proved such a superior bean that we kept it for a family bean. The strong points in its favor are its exceptionally fine flavor, remarkable productiveness, extreme hardness, and splendid appearance. It is a string bean, but there are few if any beans that cook more tender. Pods large, round and straight. The seed is pure white making it a good winter shell bean. We have been unable to find the correct name for this splendid bean and so will call it Gill's Reliable. We have many good reports from the seed we introduced last season. For family, market or canning, there are few beans superior.

Pkt., 10c; $\frac{1}{4}$ lb., 15c; lb., 30c, postpaid. By E. or F., lb., 25c. 10 lbs. at 22c lb.

***Burpee's Stringless Green Pod.**—We consider this the best early bush bean we have ever tried. The pods are green, of good length, entirely stringless, tender and brittle and remain so until nearly ripe. This brown-seeded bean is both early and hardy and one of the richest flavored beans of all. It is well adapted to our climate and is a splendid market or garden bean. Per pkt., 10c; $\frac{1}{4}$ lb., 15c; lb., 30c. E. or F., lb., 25c. Lots of 10 lbs. or more at 20c per lb.

***Burpee's Brittle Wax.**—Noted for its exceptionally fine quality, extreme earliness and vigorous productiveness. The golden wax pods are long, entirely stringless and very meaty. The seeds are white with a small black dot

Marshall's Pole Lima.

around the eye; they are good for Winter use when dry. Our stock is limited. 2-oz. Pkt., 10c; $\frac{1}{4}$ lb., 15c; lb., 30c. By E. or F., lb., 25c.

Dickenson's Yount Bean.

***Burpee's New Kidney Wax**—This new bean is superior to Wardell's Kidney Wax. The pods are six to eight inches long, solid and quite brittle if not allowed to become too old. The pods are a pretty lemon yellow color and the whole plant is remarkably vigorous, prolific and free from disease. Pkt., 10c; $\frac{1}{4}$ lb., 15c; lb., 30c. E. or F., lb., 25c. 10 lbs. at 22c per lb.

Dwarf Horticultural or Cranberry—A rich flavored early bush bean generally used as a green shell bean; vigorous and prolific. Seed and pod striped and blotched with red on white. This class of beans should be more grown as they are very rich flavored either green or dry for winter. Pkt., 10c; $\frac{1}{4}$ lb., 15c; lb., 30c. E. or F., lb., 25c. 10 lbs. at 20c lb.

Refugee, or One Thousand to One—Very productive vines, hardy, vigorous and of spreading habit. Valuable for pickling and canning. Pods about $5\frac{1}{2}$ inches long, medium green when in condition to use as snaps, but turning light yellow when ripening. Pkt., 10c; $\frac{1}{4}$ lb., 15c; lb., 30c. By E. or F., lb., 25c. Lots of 10 lbs. at 20c lb.

Pole Beans

Dickenson's Yount—We believe this to be the largest of all beans, but notwithstanding its enormous size it has a fine rich flavor when cooked. We have seen the pods over one foot in length and nearly one inch in diameter. We have tested this bean carefully and recommend it to our patrons. It is an enormous yielder and the quality is superb. The pods and seed are light yellow striped and mottled with crimson. This is a good bean for home canning. Seed scarce. Pkt., 15c; lb., 45c, postpaid. E. or F., lb., 40c.

True Asparagus—While the Kentucky Wonder Bean is often known and sold for the Asparagus Bean, this is the true Asparagus variety. The pods are fully as long as the Kentucky Wonder but more slender and richer in flavor. Seed light drab color.

Pkt., 10 lb., 40c; E. or F., lb., 35c.

***Kentucky Wonder Wax**—This grand new pole bean is a wax podded Kentucky Wonder and many think it is of better flavor. We believe it is a more vigorous grower and will yield fully as heavy as the Kentucky Wonder. The pods are a light yellow, extra large, broad and long and cook very tender. We recommend this bean strongly. Comparatively early. Pkt., 10c; lb., 25c. E. or F., lb., 23c. 10 lbs. at 20c lb.

***Kentucky Wonder**—This is the old standby and is no doubt the heaviest yielder of all beans. Often sold as Asparagus bean. A string bean with long green pods and light brown seeds. It cooks tender and is a good all-round bean. Large pkt., 10c; lb., 25c, postpaid. E. or F., lb., 20c. 10 lbs. at 18c lb.

Shell Beans.

***Marshall's Pole Lima or Oregon Lima**—Those who are fond of a good lima or butter bean will find nothing better than this for our Northwest climate. Last season this bean, planted May 20th, matured ripe seed before frost. The large, plump white beans are excellent shelled green or used as dry beans. We recommend this bean as it is early, hardy and prolific. This bean is fully acclimated as we have grown it for years. Our stock is somewhat limited. Postpaid, pkt., 10c; lb., 40c. E. or F., per lb., 35c.

White Tepary—A small seeded white bean. A very heavy yielder that ripens well in the Northwest. It has proven successful in Eastern Oregon as well as in the Willamette Valley.

$\frac{1}{4}$ lb., 10c; lb., 25c, postpaid. E. or F., lb., 20c; 10 lbs. or more at 18c lb.

Red Mexican—We are able to offer this popular red bean in Oregon grown acclimated seed. Productive, of medium sized red beans which ripen quite even. $\frac{1}{4}$ lb., 10c; lb., 20c. By E. or F., 15c lb.

***Lady Washington**—We offer seed of this bean, that has been grown several seasons in Oregon and is fully acclimated. $\frac{1}{4}$ lb., 10c; lb., 20c. E. or F., 15c per lb.

BEETS.

Plant in rows 3 feet wide, with drill, April 1st to June 1st. Thin to 3 or 4 inches apart for table beets and 8 to 12 inches for mangels. For winter beets the later sowing is best.

***Early Model.**—We consider this, after several trials, to be the best all-round table beet for this section. Its extreme earliness, perfect uniform shape and rich coloring throughout make it the best market and garden beet. Entirely free from strings or core. We have grown them for market and they have given fine satisfaction. By careful selection we have developed a strain of this beet that is more uniform than any we have ever seen and our seed of this sort is of our own growing and fully acclimated. While we are compelled to ask more for this seed it will more than justify you in the quality and quantity of the crop.

Pkt., 10c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.35, postpaid.

Detroit Dark Red—A fine beet for market or home garden. Roots of medium size, nearly round and very uniform; flesh blood red. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00, postpaid.

Eclipse—A standard sort, very early, of globe shape, good quality, dark crimson, zoned pinkish white.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 90c

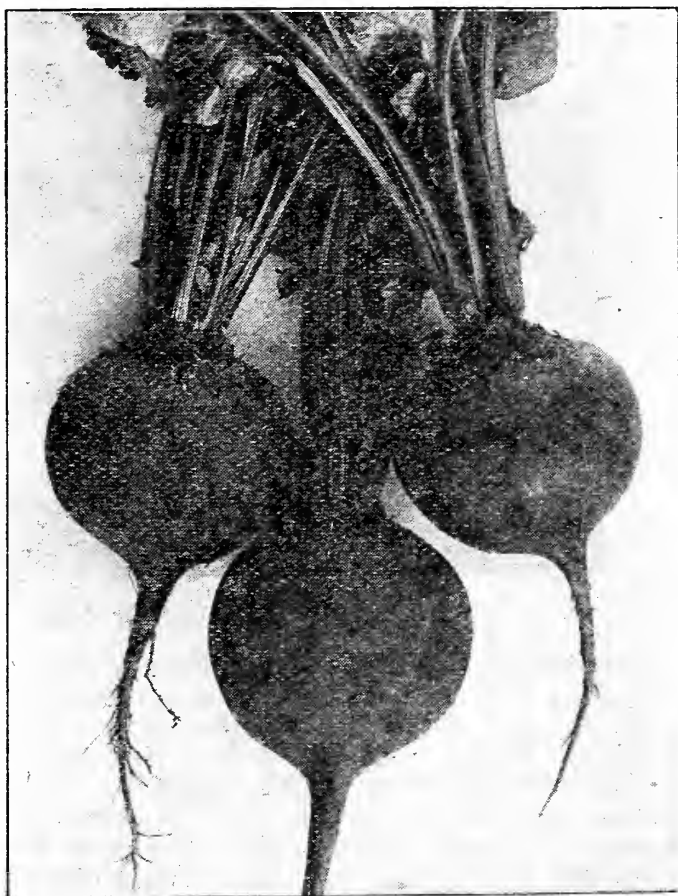

MANGEL BEETS.

Golden Tankard—A smooth, yellow-fleshed mangel of large size, growing largely above ground, making it easy to harvest. A good yielder. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 15c; lb., 50c. E. or F., lb., 45c.

Mammoth Prize Long Red—The standard red sort, with roots often growing two feet long. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 15c; lb., 50c. E. or F., lb., 45c.

Danish Sludstrup—Awarded first-class certificate for food value by the Danish government. Color reddish yellow. Grows partly above ground. Pkt., 5c; $\frac{1}{4}$ lb., 20c; lb., 55c.

Giant Half Sugar—Cross between a mangel and sugar beet. Flesh white and exceedingly rich. Pkt., 5c; $\frac{1}{4}$ lb., 15c; lb., 50c.

Early Model Beets.

SWISS CHARD

Lucullus—Grows about two and a half feet high. The heavy stalks are over an inch thick and bare for more than a foot of their length. Should be served as you would asparagus. The leaves make the finest of "greens." Swiss Chard is hardy, easily grown and should be in every garden. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c.

BRUSSELS SPROUTS

***Odense Market**—We offer Oregon grown seed of this variety raised from selected heads. Many gardeners are finding it profitable to grow sprouts, as they usually bring a good price; then, too, the waste leaves and stalks can be used for feeding stock. This variety is somewhat dwarf with close round heads. Pkt., 5c.; oz., 35c; $\frac{1}{4}$ lb., \$1.00; lb., \$3.50.

CABBAGE.

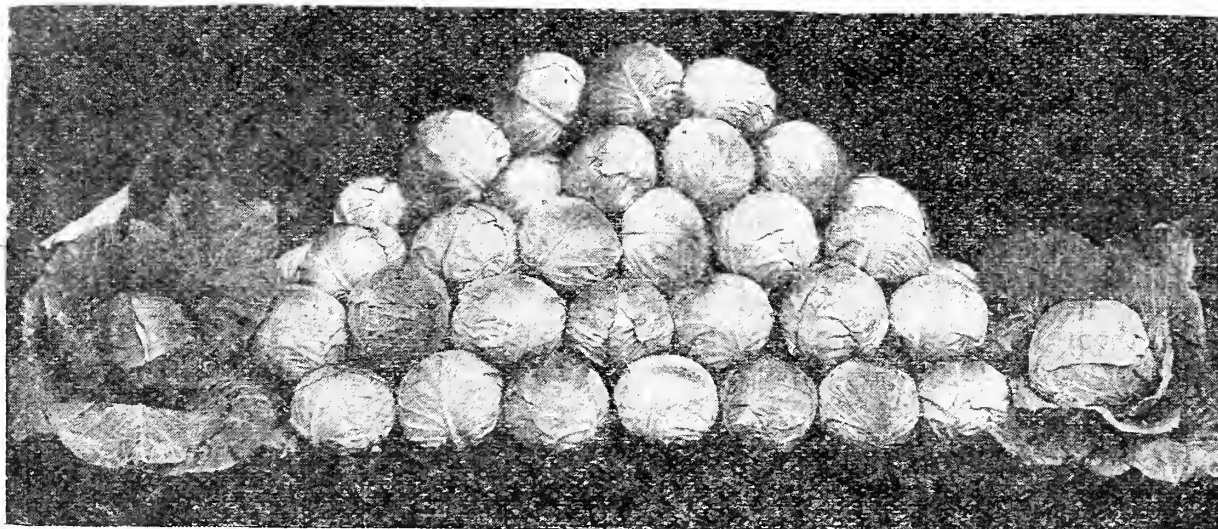

Early varieties should be started in cold frame in January or February or sowed the fall previous. They can be grown in a hotbed but this is not so good as the plants become tender. The earliest cabbage can be grown by sowing seed in August or early September, then transplanting to the field in October. For late, plant seed in open ground May 1st, transplant June 15 for fall and July 1st to 20th for winter cabbage, in rows $3\frac{1}{2}$ ft. apart, from 26 to 42 inches in the row, according to the richness of the soil and size of variety. Do not crowd them. They do best in a rich, loamy soil, with barnyard manure of any kind and applying 100 pounds of Utah land plaster to the acre.

Early Jersey Wakefield—This old standby still holds front rank as a first early cabbage. Its cone shaped heads mature very quickly and are unusually sweet and brittle. Our strain of this seed is very true to type and superior to that generally offered. Pkt., 5c;

oz., 35c; $\frac{1}{4}$ lb., 90c; lb., \$3.00, postpaid.

Large Wakefield, or Charleston—Similar to Jersey Wakefield, but half again as large and 10 days later. Postpaid, pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50.

GILL BROS. SEED CO.
CABBAGE—Continued

Danish Ball Head Cabbage or Hollander. Note Uniformity of Size and Shape.

***Danish Ball Head, or Hollander**—The best main crop cabbage. Hard as a rock and holds its color after cutting better than other cabbage. We have seen it lay for three weeks without turning yellow. This makes it a fine shipper and a fine retail cabbage. The market requires a small, hard-headed cabbage to bring the best sale and this variety meets this demand. It will mature heads in soil where other varieties fail. A cabbage sure to head if given half a show. Our strain is from selected heads. We have had many praises for our strain of this seed and those who grow for market should place their order with us. We grew a fine lot of this seed last summer from carefully selected heads. This strain is medium short stemmed.

Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50.

***Glory of Enkhuisen**—This splendid cabbage we recommend as the best for a summer or early fall market, as it matures larger heads in hot weather than any sort we have tried. It can also be planted as a first early and will mature good large heads about the same season as Charleston Wakefield; the heads are quite deep, very tender and brittle and of the finest flavor. Even for a winter cabbage it heads fine and as a family cabbage it cannot be beaten. Our seed is from selected heads.

Pkt., 5c; oz., 35c; $\frac{1}{4}$ lb., 90c; lb., \$3.00.

All Head Early.—A second early, flat headed sort, very sure heading and little subject to bursting. Extra fine kraut cabbage.

Pkt., 5c; oz., 30c; $\frac{1}{4}$ lb., 90c; lb., \$3.00, postpaid.

Danish Roundhead.—Largely grown for market; larger than Danish Ballhead, and somewhat earlier. We have been fortunate in securing an especially fine strain of this seed which we can recommend.

Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 80c; lb., \$3.00.

Early Winnigstadt—Later than Jersey Wakefield, good either for summer or winter. Small pointed heads and very sweet.

Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Copenhagen Market—Nearly as early as Early Jersey Wakefield, with good sized, round, hard heads that mature very even. This is now one of the leading cabbage for early markets. Pkt., 10c; oz., 35c; $\frac{1}{4}$ lb., \$1.15; lb., \$4.00.

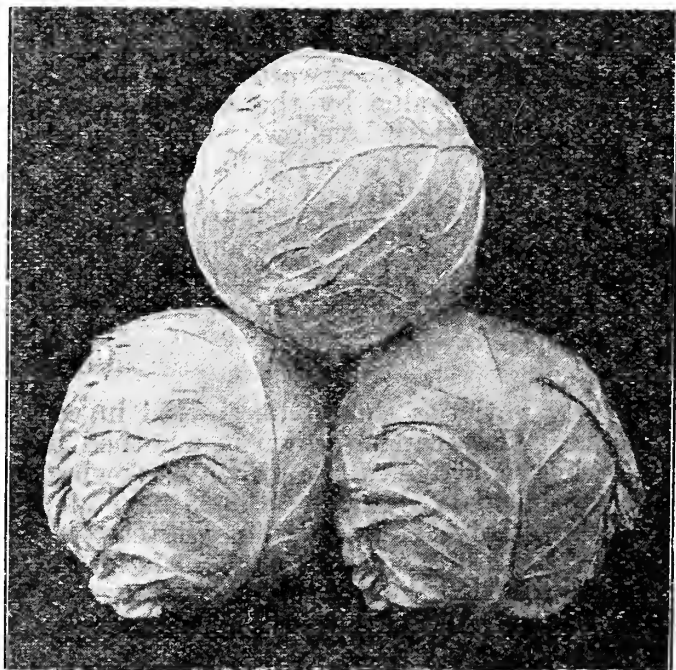

Perfection Drumhead Savoy—Curly, crinkled leaves, sweet and of fine texture.

Pkt., 5c; oz., 35c.

Mammoth Rock Red—The best red cabbage, hard heading and large. Fine for cold slaws.

Pkt., 5c; oz., 35c.

Red Stonehead.—Similar in type to the Ballhead, hard and deep red. Pkt., 5c; oz., 40c.

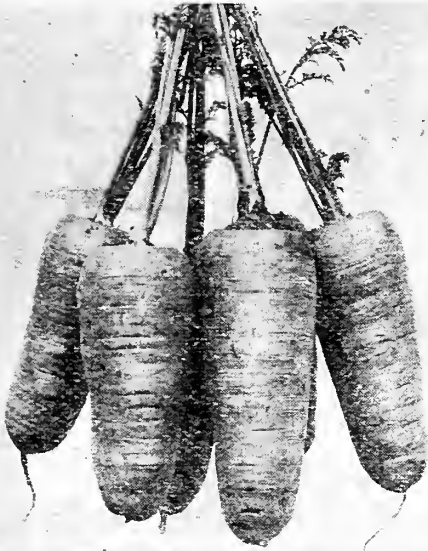

Glory of Enkhuisen

Collection offer. 11 pkts., one of each cabbage, worth 60c for 35c postpaid.

For Cabbage and Cauliflower Plants, See Page 3.

CARROTS

Note our Oregon-grown Carrot Seed, far superior to cheap strains.

Chantenay Carrots.

***Early Model, or Chantenay**—We consider this the best of the table carrots. The roots are very smooth, stump-rooted and thick at the tops. The tenderest and sweetest carrot we ever grew. It will grow closer together in the rows and still mature more good-sized carrots than any other. In fact it is such a good yielder that many plant it for feeding purposes. It does not crack like some varieties. Decidedly the best carrot for market, either for sacking or bunching. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; lb., \$1.25, postpaid.

Carrots may be planted from March to June. We prefer to plant from May 10 to 25, they will then miss many of the spring weeds and will stand through the dry season better, making a better quality of roots. Those who plant any quantity should use a good drill, as it lessens the work and gives a more even stand. As soon as they are up use a wheel hoe, following this with a harrow tooth cultivator. Those who have no wheel hoe can run a line of land plaster along the row as soon as the carrots show, then follow with a harrow tooth cultivator. The plaster will enable you to see the rows clearly as well as fertilize. Plant in rows 3 feet wide.

***Danver's Half Long**—The standard stock carrot, but we do not recommend it for table use as compared to the Chantenay. It is a heavy yielder and is largely planted. Our strain of it is extra good.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Large White Belgian—Long-rooted white stock carrot, very heavy yielder. Postpaid, pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 90c.

CHICKORY

Large Rooted—Chickory does extra well in this climate and is considered by many as an excellent substitute for coffee. Plant like carrots. Pkt., 5c; oz., 15c.

CAULIFLOWER

For early Cauliflower the same culture as for early cabbage may be used. For late cauliflower, in the description of the varieties offered, the time of planting seed and plants is given. Cauliflower does best in a rich, loamy soil, not a cold, wet location. Plant $2\frac{1}{2}$ to $3\frac{1}{2}$ feet in rows, and $3\frac{1}{2}$ feet between rows. As soon as the heads are large enough to soon be exposed to the light, tie or break the leaves carefully over the head to keep the light away from them. Great care should be used in growing plants of any of the early sorts, that they receive no severe check in their growth, as this will cause them to produce premature heads. Success can be had with the early varieties by planting the seed in the field where they are to grow, even as late as July 10. However the soil should be thoroughly prepared and several seed put in a hill, thinning them down to one plant when they have reached transplanting size.

Danish Giant Dry Weather.—One of the best varieties for home or garden use. The large, heavy, compact, pure white heads are shielded from the weather by tall leaves which twist and coil about the heads making them almost self-protecting. One drawback to many varieties for market gardeners is the fact that they head out all at once, but this variety heads through a period of two months. It will also stand longer without spreading than most sorts. On account of its resistance to dry weather it is one of the best sorts for early Fall growing, but does equally well for later Fall purposes. For early Fall use, plant the seed about April 15 and transplant about June 15, and for late Fall, plant seed May 25, and transplant July 10 to 20. $\frac{1}{2}$ pkt., 10c; pkt., 20c; $\frac{1}{4}$ oz., 75c; oz., \$2.00; $\frac{1}{4}$ lb., \$6.00.

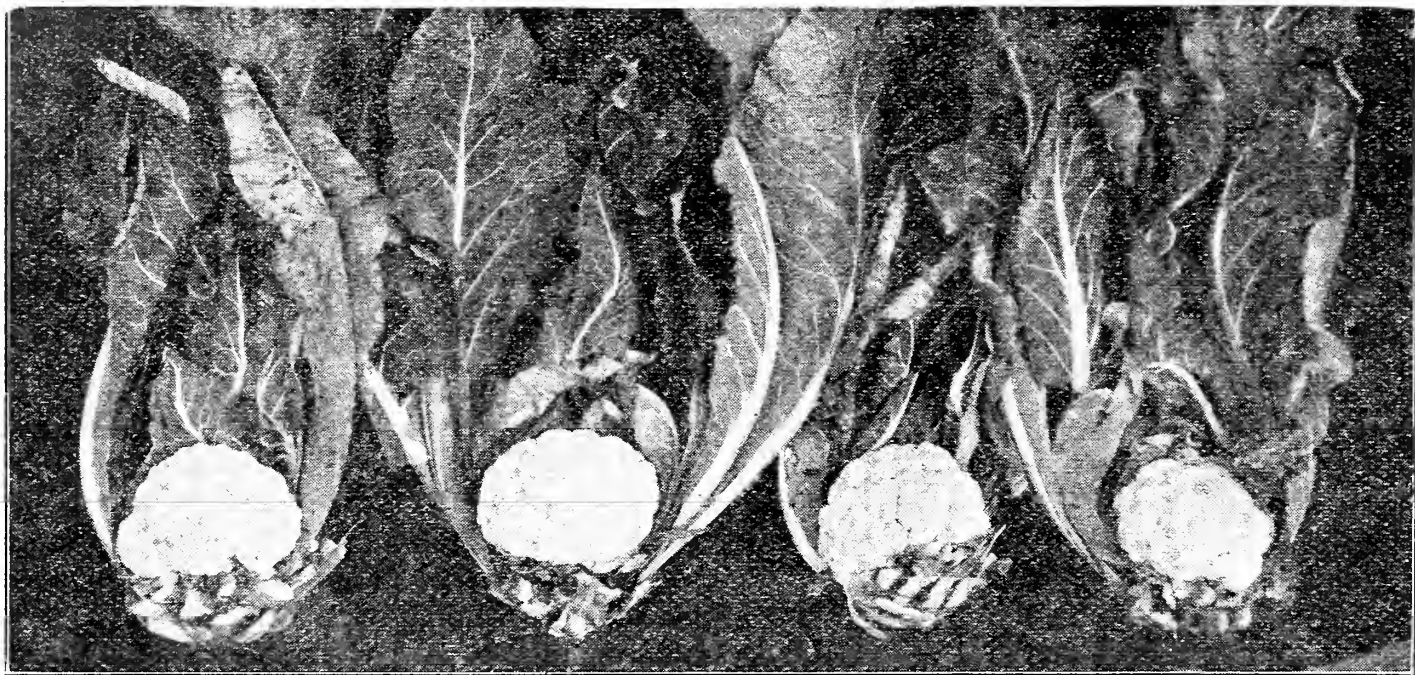

Veitch's Autumn Giant—A hardy, tall-growing cauliflower, making extra large, white heads. The leaves are dark green, and being extra long can easily be broken over the heads to protect them. For years we have grown acres of this cauliflower for the Portland market, and it has always given good satisfaction. Stands handling and shipping better than Early Snowball or Dry Weather. Remarkably vigorous and thrifty. For late cauliflower, season of October, November and December, sow seed in open bed May 1st, transplant July 1st to 15th.

Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.50; lb., \$5.00.

Select Early Snowball.—We have an especially good strain of this standard early cauliflower and can recommend it very highly.

Pkt., 10c; $\frac{1}{4}$ oz., 60c; oz., \$1.75; $\frac{1}{4}$ lb., \$5.00

GILL BROS. SEED CO.
CAULIFLOWER—Continued

Danish Giant Dry Weather

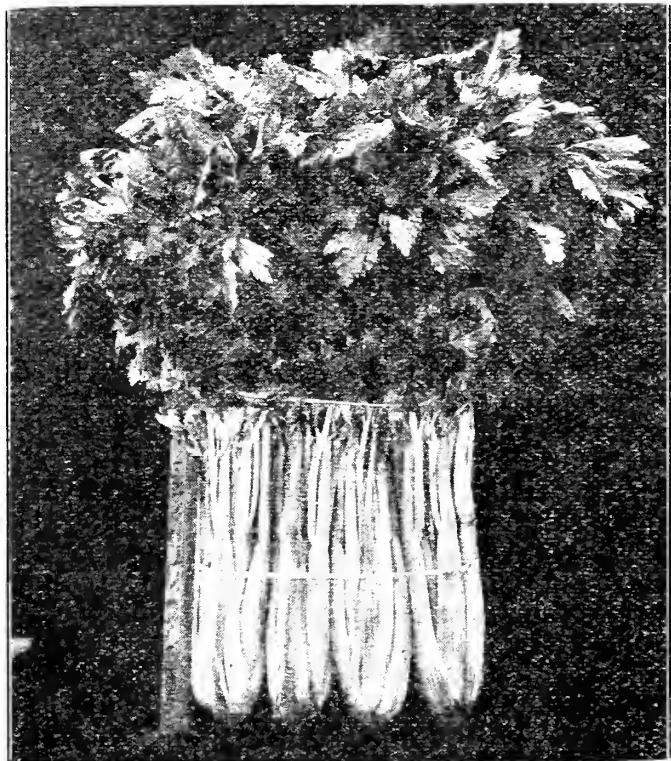

Late Autumn Giant.—This strain heads a month later than Veitch's Autumn Giant. Heads are very solid and white. Leaves are tall and heavy ribbed; inner leaves coiling over the head. Season, November, December and January.

Pkt. 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.50.

Burpee's Best Early—Extra large, solid, perfect heads, maturing early. For October use, plant seed June 10th and transplant July 20th. We have grown this cauliflower several years and recommend it highly. Half pkt., 15c; pkt., 25c; $\frac{1}{4}$ oz., 75c; oz., \$2.75; $\frac{1}{4}$ lb., \$10.00.

Gilt Edge.—Somewhat similar to Best Early. Immense, solid, pure white heads, of the finest flavor. Splendid market gardeners' sort.

$\frac{1}{2}$ Pkt., 15c; pkt., 25c; $\frac{1}{4}$ oz., 65c; oz., \$2.00.

Golden Self Blanching

Broccoli or Hardy Cauliflower.

Mammoth White Broccoli—A late variety, season December to February. Long, tapering, heavy ribbed leaves, inner leaves curling about the head. While considered a broccoli, it is really only a late cauliflower. Brings fancy prices, but the grower must take chances on freezing in the northern part of the state.

Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.50; lb., \$5.00.

St. Valentine Broccoli—Large, solid, handsome, white heads of immense size; ready for market in February. Pkt., 10c; $\frac{1}{4}$ oz., 40c; oz., \$1.25; $\frac{1}{4}$ lb., \$4.00.

***Early Large White French Broccoli**—This variety planted in July heads the next spring in April and is largely sold in Portland as a cauliflower, which it really is, broccoli being the name applied to extra hardy cauliflowers.

Pkt., 5c; oz., 45c; $\frac{1}{4}$ lb., \$1.30.

Sutton's Late Queen.—Exceptionally late, heading in May and June. It will stand quite severe winters and matures so late that it comes just ahead of early cauliflower. It brings good prices. Pkt., 10c; $\frac{1}{4}$ oz., 40c; oz., \$1.25.

For Cauliflower and Celery Plants
See Page 3.

CELERY

Golden Self Blanching.—We regret we have not been able to secure good seed of the Danish strain and have dropped it. We offer a fine strain of this variety, French grown. The thick, solid stalks are a deep creamy yellow and their flavor is unsurpassed. They are unusually free from strings and very solid, tender and brittle. This is the variety most generally grown for the market. Pkt., 10c; $\frac{1}{2}$ oz., 90c; oz., \$1.50; $\frac{1}{4}$ lb., \$5.00.

Golden Self Blanching, Oregon Grown.—This seed was grown for us by a successful celery grower from a fine commercial strain. Offered for trial only this season. Pkt., 10c.

Giant Pascal—Extra large growing sort for fall and winter use and planted very extensively. Blanching yellowish-white in color. Stalk tender and crisp.

Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c.

White Plume—We offer a good strain of this standard sort.

Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 90c.

CELERIAC, Turnip Rooted Celery—

Pkt., 5c; oz., 25c.

CELERY CABBAGE.

A delicious new salad vegetable from China which is excellent for salads and cold slaw, and is sometimes used like Swiss Chard. The stems can be used like celery. This vegetable is making good, both for market and home gardens. For best results plant the seed in August, but it can also be planted in early Spring.

Pkt., 10c; oz., 50c.

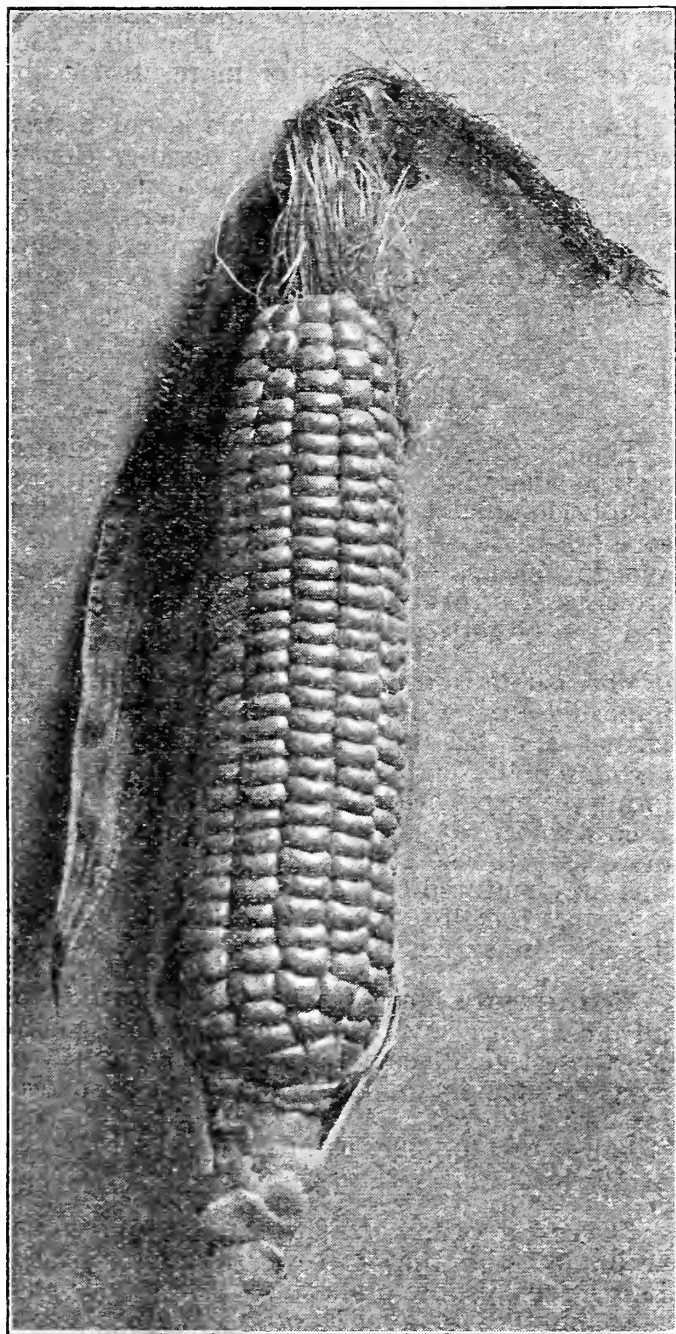

SWEET CORN

The first requisite for success with corn is acclimated seed.

Note Our New Plan.— $\frac{1}{4}$ lbs. of corn for the packet price. This applies on third zone and under, over that we send 2 oz. pkts.

The prices paid for first early corn pays the grower to take chances on early planting. For this planting use 4 or 5 seeds per hill and cover one inch deep. Space hills 28 to 36 inches and rows $3\frac{1}{2}$ feet allowing two stalks to the hill, or as some prefer and we think this gives the best results, plant 20 inches between hills, and thin to one stalk, this gives all the stalks an even show. April 20 to May 1 is generally good season for early corn, of course, depending on the weather. May 15th to 25th is good for the later sorts, as they do not resist damp, cold weather so well as the early sorts.

Corn will not fill well unless the patch planted is blocked out; those planting small quantities should make the patch square, or nearly so. This will permit the pollen to blow down on the silk, fertilizing the ears. Early corn may be planted in succession up to June 25th.

Gill's Improved Golden Bantam.

***Gill's Improved Golden Bantam.**—The sweetest, prettiest and most delicious corn yet introduced. The kernels are of a rich golden-yellow color, which, together with their thin skin, makes them superior for table use. Without question the best corn of its season, either for home garden or market. We grew a large stock of this seed last summer and it has cured up clean and bright. It is about two weeks later than Portland Market.

We desire to call your attention to the ear shown in the cut which is twelve rowed. We have increased the size of this corn more than 50%, thus overcoming an objection often made against it as a market corn. Most of the ears grown from our improved strain will contain 10 to 12 rows of large, plump grains and none of its good qualities have been lost in our selection. We urge a larger planting of this corn by all market gardeners, for even when the market is glutted with white corn this will always sell readily. There is no better corn for home canning or drying and in fact it is the last word when it comes to quality. Pkt., 10c; lb., 25c, postpaid. By E. or F., 20c lb.; 10 lbs. or more at 18c per lb.

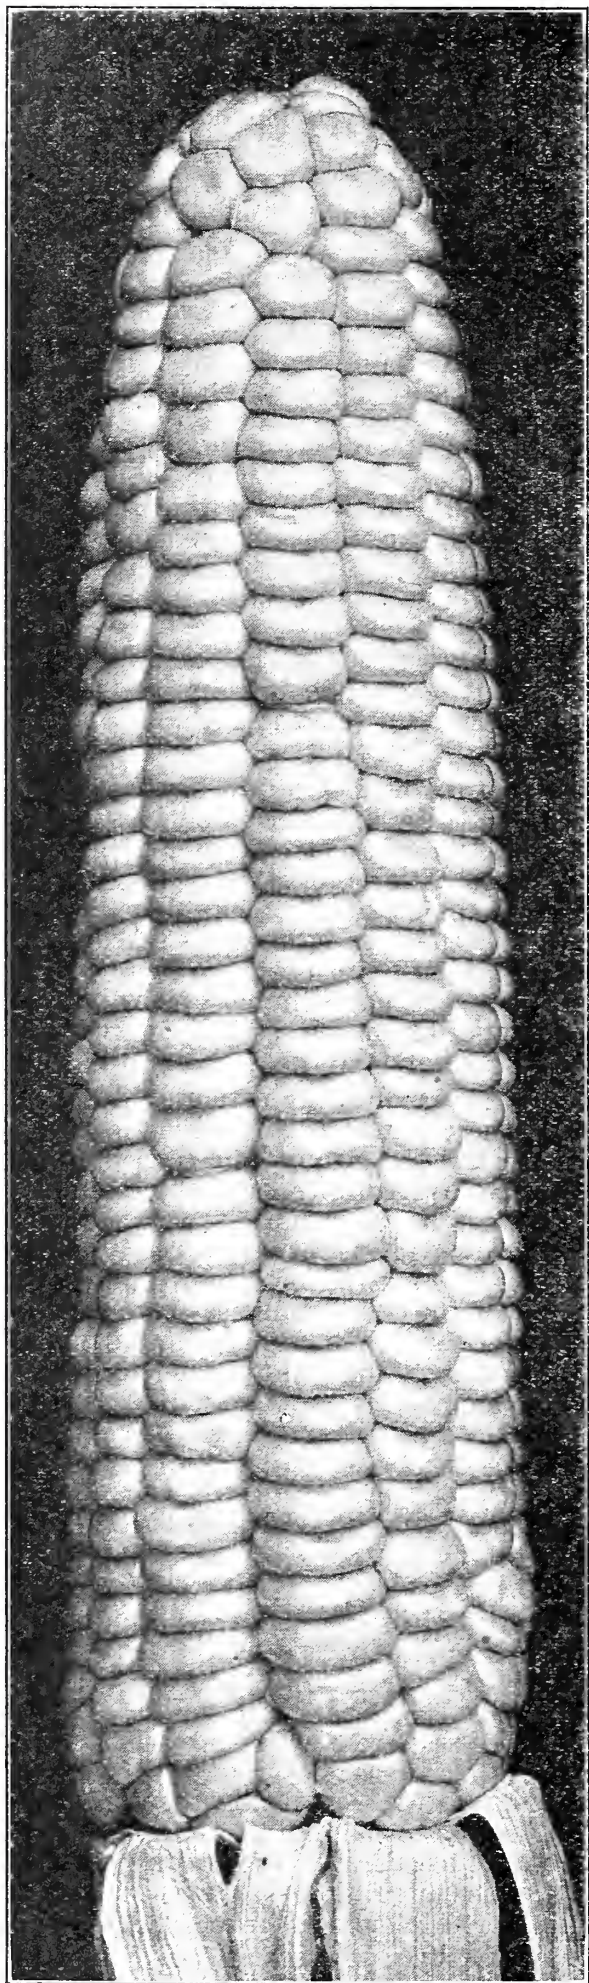

***Gill's Portland Market.**—Introduced by us five years ago this is now the leading early corn and is the largest of all early varieties. Its immense size, together with its large, sweet, plump grains of purest white, on well filled ears, make it a ready seller on any market. The large ears, often a foot in length, mature very even and owing to the thin husks the marketable ears are easy to detect. The stalks grow strong and vigorous, but rather dwarf.

Pkt., 10c; lb., 25c. E. or F., lb., 20c; 10 lbs. or more at 15c.

Stowell's Evergreen.—The popular late sweet corn. Often planted for fodder. We have a true strain of this seed.

Pkt., 10c; lb., 20c. E. or F., lb., 18c; 10 lbs. or more at 15c.

SWEET CORN—Continued

Portland Market Corn.

Our own introduction. The largest first early corn in existence. More of this corn is now planted for early purposes than any other.

***Gill's Early Market.**—Last Summer this corn was first on the market at Portland and brought 25c per doz. wholesale. Selected for earliness from the Portland Market, this is positively the earliest true sweet corn, being 10 to 14 days earlier than its parent.

While not so large as the Portland Market, the ears are of good size, and well filled with large, sweet, plump, white grains, set 12 to 14 rows to the cob. In character of growth it is similar to Portland Market, except it is more dwarf. If you want the first sweet corn in your neighborhood, plant this variety.

To get the best results from this corn the soil should be well fertilized with fresh horse manure. This will prevent it being stunted by cold Spring rains and the ears will be larger.

Pkt., 10c; lb., 30c, postpaid. E. or F., lb., 25c; 10 lbs. at 20c lb.

***Howling Mob**—A large-eared, vigorous-growing, second early corn. Now considered to be the best corn for late use through this section. It can be planted in succession so as to have corn until frost. Stalks grow 5 to 7 feet producing 12 to 16 rowed ears which are of good flavor. Pkt., 10c; lb., 25c. E. or F., lb., 20c; 10-lbs. or more. at 15c lb.

Early Evergreen—While this is not a first early corn, this strain is considerably earlier than Stowell's Evergreen, which in general character it resembles. Pkt., 10c; lb., 25c, postpaid. E. or F., 20c; 10 lbs. or more at 15c.

Collection Offer—Six packets sweet corn, one of each kind, postpaid, 40c.

FIELD CORN

The growing of field corn has now reached a stage where it is past being an experiment and with acclimated seeds of any of the good earlier sorts there is no difficulty to obtain success. We do not and will not handle any but local grown seed of field corn and our customers may feel sure of getting the right seed.

***Trundell Dent.**—This new Dent corn was imported from Canada by an Eastern Oregon farmer and has proven exceptionally fine on account of its earliness, smallness of cob, uniformity of type, heavy yield, and its rich golden-yellow color. It has a tendency to set two or more ears to the stalk. Planted May 20th it was fully matured Oct. 10th.

$\frac{1}{4}$ lb., 10c; lb., 20c. E. or F., lb., 15c; 10 lbs. or more at 12c lb.

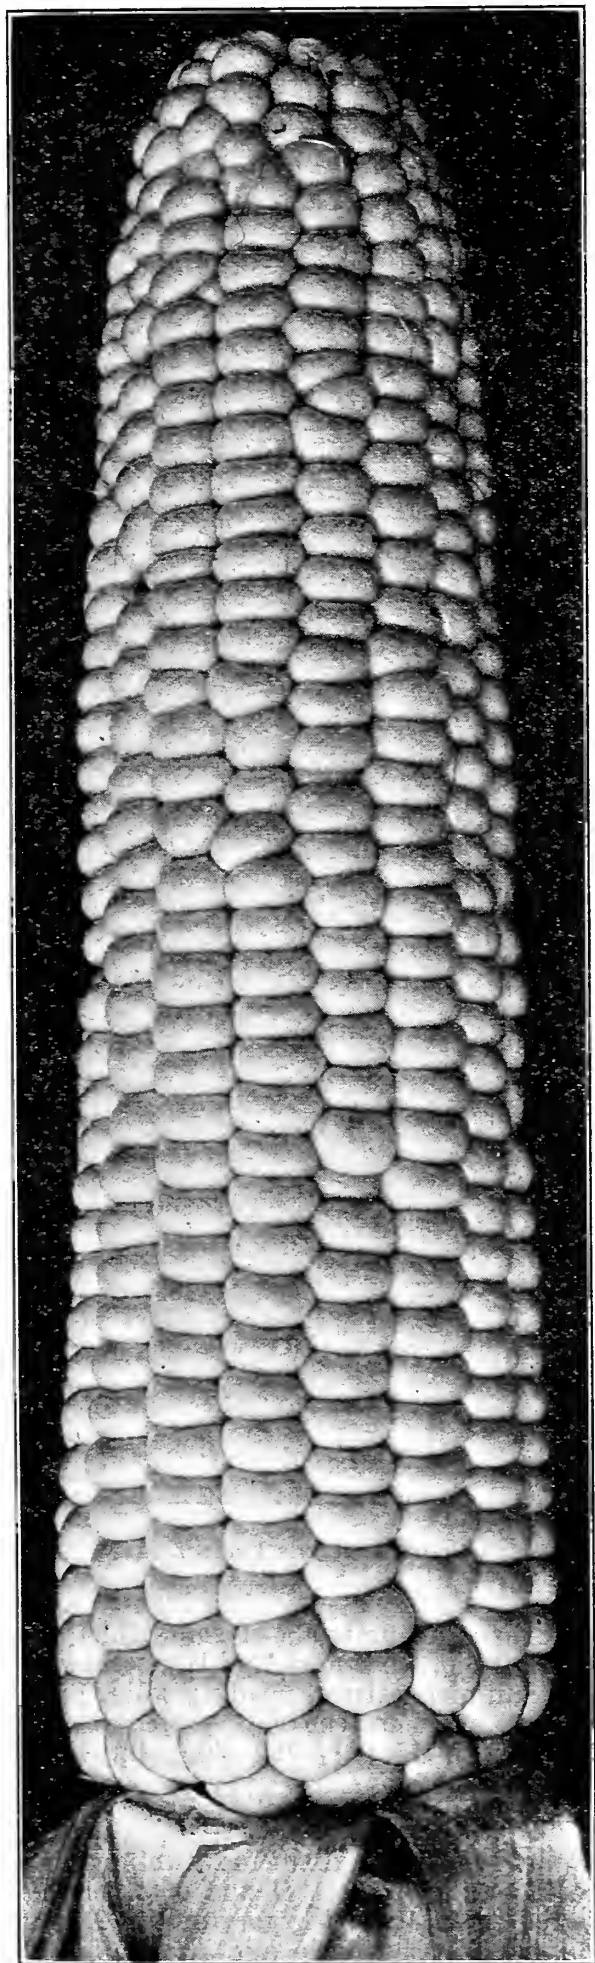

***Minnesota No. 13**—One of the earliest of all field corn and one well adapted to our Northwest conditions. Grains golden yellow, deep and heavily dented. One of the best sorts for ensilage.

$\frac{1}{4}$ lb., 10c; lb., 20c; E. or F., lb., 12c; 10 lbs., at 10c lb.

***Oregon Yellow Dent**—An Oregon grown acclimated sort that does well in the Northwest. Large deep yellow grains.

$\frac{1}{4}$ lb., 10c; lb., 20c; E. or F., lb., 12c; 10 lbs., at 10c.

***Gold Nugget.**—The earliest Dent corn we know of for this climate. Golden yellow grains on fairly large ears. $\frac{1}{4}$ lb., 10c; lb., 20c; E. or F., lb., 12c; 10 lbs. at 10c lb.

Howling Mob Corn.

Pop Corn

***White Rice**—The standard white sort.

***Red Rice**—Bright red grains of fine quality. Price of both sorts, pkt., 5c; $\frac{1}{4}$ lb., 10c; lb., 20c. E. or F., lb., 15c.

CUCUMBERS

Plant 4 feet each way in rich, loamy soil, from April 15 to June 1, 8 to 10 seeds to hill; thin to three good vines. Cover seeds one inch deep and press firm.

Davis Perfect—This new cucumber is taking front rank for a garden or slicing cucumber. The most vigorous and thrifty grower we have tried. Produces a heavy yield of uniform, long, dark-green cucumbers. Holds its color good after marketing. Postpaid, pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; lb., \$1.00.

Perfection White Spine.—The White Spine cucumber has long been a general favorite, but is now listed under so many names as to be confusing to the planter. We offer a good thoroughbred type of this variety, one especially suited for slicing and general use. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; lb., \$1.00, postpaid.

Improved Long Green—Extra long, large cucumbers; fine for slicing, pickling or for sweet pickles when ripe. A very vigorous and healthy grower. Postpaid, pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 85c.

Snake Cucumbers—A great curiosity for fairs. Long cucumbers, 3 to 5 feet long, which curl like a snake. Pkt., 10c.

Thorburn's Everbearing—A splendid pickling cucumber, very vigorous, bearing through a long season. Medium sized and very uniform. This ranks among the best of the pickling sorts. This is one of the earliest of all cucumbers and as a good all-round cucumber we recommend it highly and especially for pickling. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; lb., \$1.00, postpaid.

Boston Pickling—The most generally planted for pickles through this section. Medium sized and a vigorous grower. Postpaid, pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Lemon Cucumber—Resembles a lemon both in color and form. A splendid acquisition either for pickling or slicing. Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.00.

CRESS

Fine Curled (Pepper Grass)—Grows quickly from seed. Sow thinly in drills. Should be planted at intervals as it runs to seed quickly. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c, postpaid.

Water Cress—Suitable for damp or wet locations. Pkt., 10c; oz., 35c.

ENDIVE

Culture similar to lettuce. The outer leaves should be tied over the head to bleach.

Large Green Curled.—One of the best sorts. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c.

EGG PLANT

Start in hot beds like tomatoes, avoid any checks in growth. Set $2\frac{1}{2}$ feet in the rows and three feet between.

Early Long Purple.—Very early and productive; long, rich purple fruits of fine quality.

Pkt., 5c; oz., 55c; $\frac{1}{4}$ lb., 90c.

GARLIC

Plant the sets very early in the Spring. Lb., postpaid, 30c. E. or F., 25c.

HORSE RADISH

Common variety. 35c per doz.; \$1.00 per 100, postpaid. By E. or F., 20c per doz.; 75c per 100; \$5.50 per 1,000.

KALE

Culture, same as that of cabbage.

Tall Green, Scotch Curled—Tall and finely curled leaves. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00, postpaid.

Dwarf German.—Finely curled, low growing. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00, postpaid.

Thousand Headed.—Planted extensively for stock feed.

Selected Seed.—Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 15c; lb., 50c.

Common.—Good strain as usually sold.

Pkt., 5c; $\frac{1}{4}$ lb., 10c; lb., 30c, postpaid.

KOHL RABI

Early White Vienna—The best for table use. Kohl Rabi should be more grown, as it is a delicious vegetable, cooked like turnips. Transplant like cabbage in July; rows 3 feet wide and 1 foot in rows. Pkt., 5c; oz., 25c.

LEEK

Monstrous Carentan—Culture same as onions. Large size. The best.

Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 50c.

LETTUCE

Can be planted most any time of the year. Give head varieties plenty of room. Cover one-half inch deep.

HEAD LETTUCE

New York—The finest head lettuce for flavor, large heads of dark green color, extra tender and brittle. Produce mild heads even in the heat of summer. During the winter months this variety is shipped to our markets from California. While not early we recommend it for the garden or for main crop market lettuce. Don't leave this off your order if you are fond of good head lettuce. It is very slow to run to seed. We have many customers who are enthusiastic over this lettuce.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 55c; lb., \$1.75.

The Keene—In our trials the earliest head lettuce we had, forming compact heads of medium size which lasted well. A fine first spring head lettuce which we recommend.

Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 85c; lb., \$2.00.

Cucumber Davis Perfect

Hanson.—In our trials of some thirty varieties of lettuce, New York and Hanson proved the best Summer lettuce, heading solid, tender and sweet, even in the hot weather.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.25, postpaid.

Crisp as Ice.—It was the most uniform head lettuce in our grounds. Heads compact of a bronze red color, maturing very even. A beautiful lettuce for the table and should become a good seller. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c.

California Cream Butter.—A fine butter-head lettuce, rich in flavor, head large, fairly compact, outer leaves light green; heart a beautiful golden butter.
Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.40, postpaid.

Big Boston—One of the best head sorts for fall sowing as it is exceptionally hardy. Plants large, leaves broad, comparatively smooth, with wavy edge, hard and crisp; color bright, light green, slightly tinged with reddish-brown.
Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 45c; lb., \$1.40.

LOOSE LEAF LETTUCE

Black Seeded Simpson.—Very large loose-leaf lettuce. Light green ruffled leaves.
Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c.

Collection Offer—Eleven packets lettuce, one of each kind listed for 35c postpaid.

Tomhannock—A beautiful loose-leaf lettuce with a reddish-brown border to the edge of the leaf. A quick grower of very tender, sweet leaves, entirely free from bitterness. Can be eaten with relish in the patch.
Pkt., 5c; oz., 20c.

Grand Rapids—The standard hot-house lettuce for forcing, also does fine in the open ground. Loose leaves of a light green color and fringed edges.
Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 45c; lb., \$1.50.

COS LETTUCE

Early White Self-Folding—Leaves yellowish white, crisp and tender; forms sugar loaf heads; bleaches better if tied.
Pkt., 5c; oz., 20c.

Golden Yellow.—Long standing, large, solid hearts; crisp and tender. Should be tied.
Pkt., 5c; oz., 25c.

MUSK MELONS

Melons require a light, loamy rich soil in an early location. Plant 4 by 6 feet, giving more room for larger varieties. Use 8 or 10 seeds to the hill; cover 1 to $1\frac{1}{2}$ inches deep. When the first leaves appear thin to two plants. Turn the vines with the row to permit cultivation.

Emerald Gem—Truly the gem of red-fleshed melons. The dark green fruit is of medium size, flattened at both ends. The flesh is thick, sweet and melting, with a rich spicy flavor. An early melon, well adapted to this section.
Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; lb., \$1.25, postpaid.

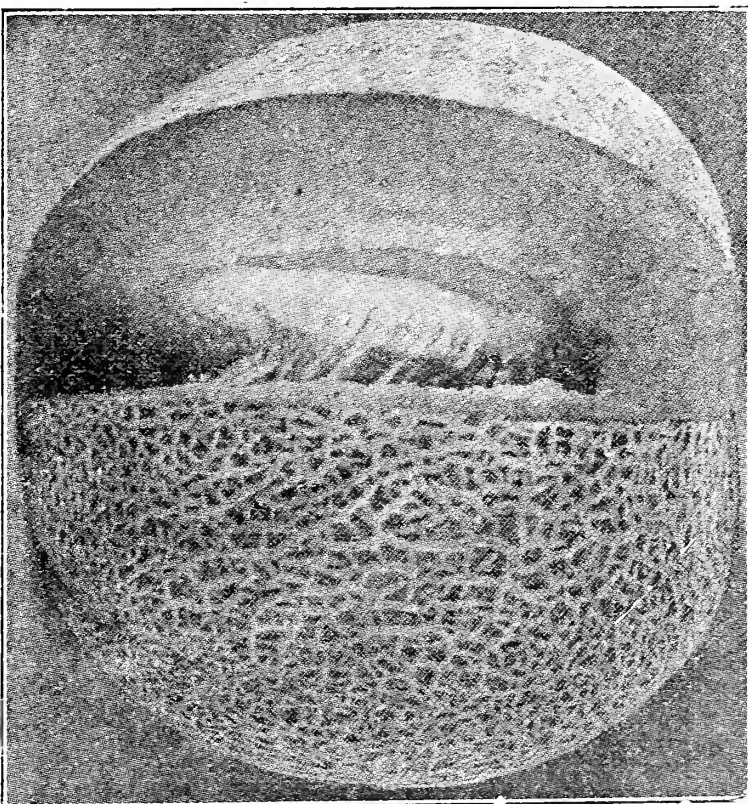

Fordhook—A firm, heavy netted melon, extra early and a heavy yielder. Flesh and flavor much like the Emerald Gem. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; lb., \$1.25.

Original Pineapple—We consider this the best of the green-fleshed melons for the Northwest. The vines are very vigorous, producing a heavy yield of good-sized, heavily-netted melons, which are somewhat elongated in shape. The meat is thick, sweet and spicy flavored. This early melon should certainly be more planted.
Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; lb., \$1.25.

Extra Early Hackensack.—Produces melons two weeks earlier than the well-known Hackensack; heavily netted, and has light green flesh of most delicious flavor; a splendid Cantaloupe melon. Large, fine form; grown for the home garden very extensively.
Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 35c; lb., \$1.25.

Netted Gem or Rocky Ford.—The standard shipping melon, medium size, with small seed cavity; green meated, spicy and sweet. Will not ripen except in those localities well suited to melon culture.
Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00, postpaid.

***Casabas.—Oregon Grown Seed.**—With acclimated seed Casabas can be grown quite successfully here. We have a limited amount of seed grown in Eastern Oregon that is of the yellow fruited type.
Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 75c.

Extra Early Hackensack

WATER MELONS

Plant 8 to 10 seeds in hills 6x6. Thin to 2 best vines. Turn vines with the row. Plant May 1st to 20th. Fertilize heavy.

***Hungarian Honey**—A small round, thin-rinded melon with rich, red flesh. Extra early and sure to ripen even in the coolest season. Those who try it once will always have them in the garden for home use, they are so sweet.

We grew our own seed of this melon last season.
Pkt., 5c; oz., 25c.

WATER MELONS—Continued.

Halbert Honey—Claimed to be superior to Kleckley Sweets as it is more uniform, of darker color and more vigorous.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 90c.

Kleckley Sweets—A medium early melon, 18 to 20 inches long and 8 to 10 inches thick; one of the sweetest of watermelons. Good for near market.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Preserving Citron—Red-seeded, oval fruits; used for preserves. Pkt., 5c; oz., 10c.

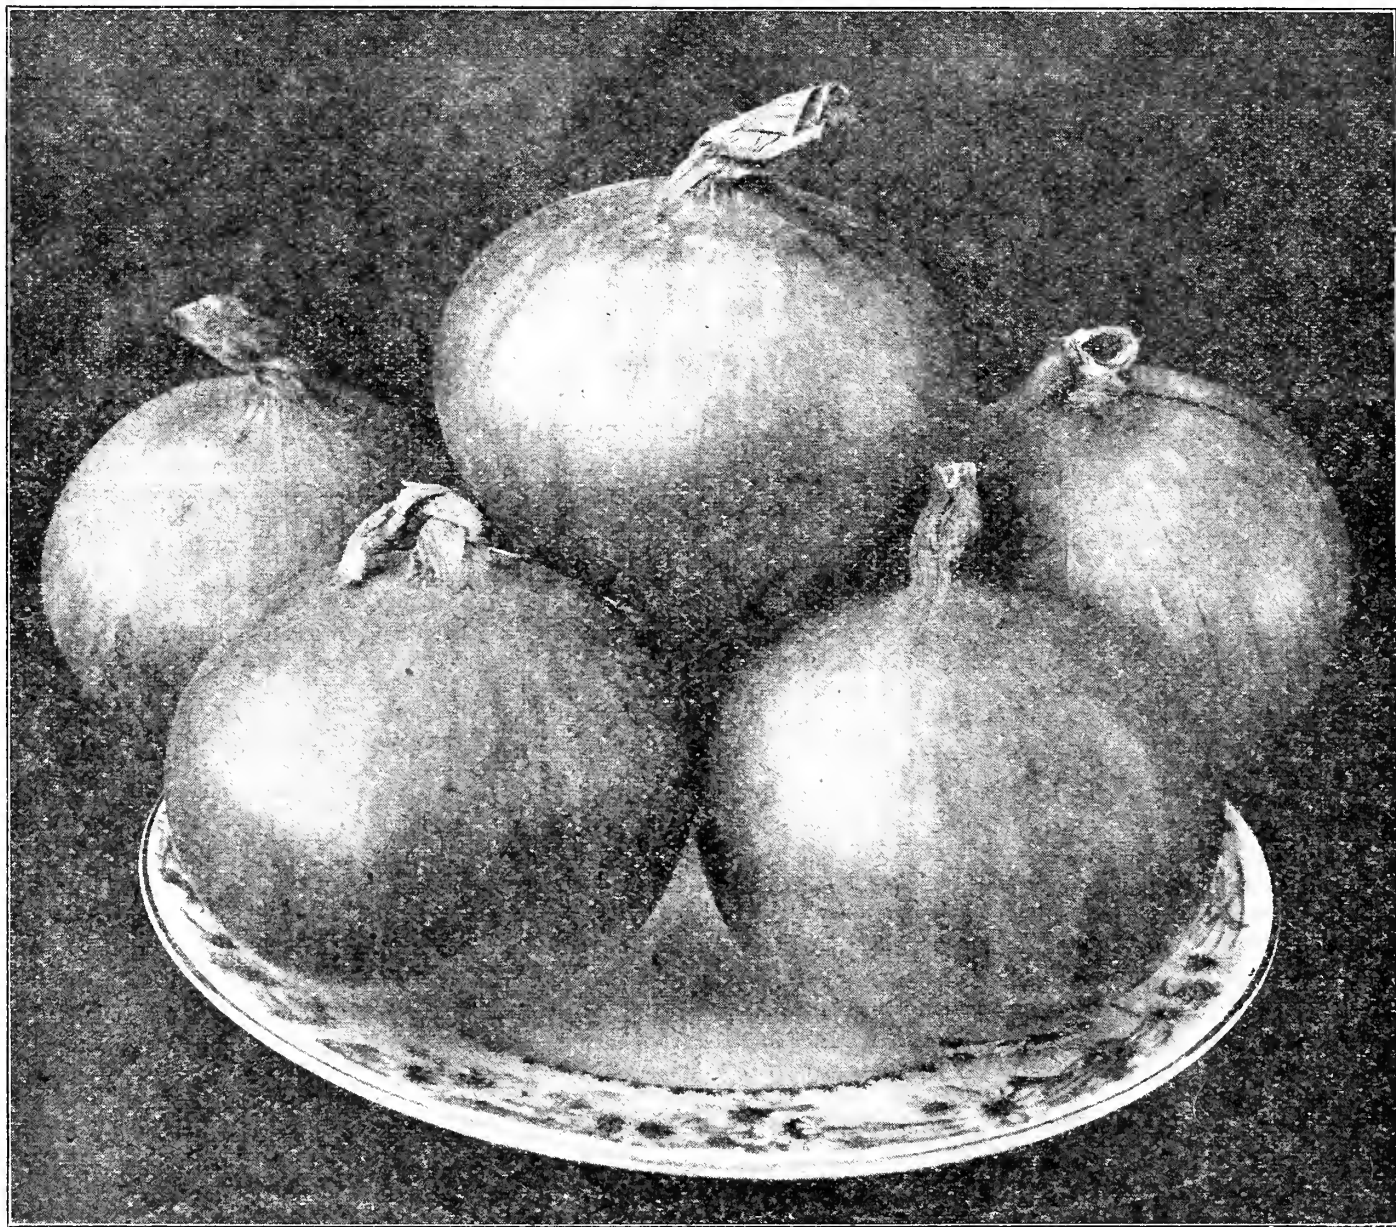

MUSTARD

Chinese—Large leaves, sweet and pungent. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 60c, postpaid.

MUSHROOM

Pure culture Mushroom Spaun. Per brick, 40c, postpaid. E. or F., 35c.

Market gardeners should write us for prices on quantities.

Select Oregon Yellow Danvers

ONIONS

A rich loam is best, fertilized with well rotted manure at least one year old. Sow seed in February or March if the condition of the ground and the weather will permit. Sow with drill in rows 12 to 16 inches apart; cover half-inch deep. Hoe with wheel hoe as soon as they are up, but do not more than scalp the surface, as onions do not stand deep cultivation. Thin them to about 8 plants to the foot. It requires about 3 to 4 lbs. of seed to the acre. Onions are peculiar in that they do well year after year on the same ground.

***Select Oregon Yellow Danvers**—This variety is largely planted through the northwest. The onions are large, half globe shape, with small necks; early and heavy yielders. We handle a strain of this seed, which is grown for us by an onion specialist who has been growing fine onions for several years in Oregon. Onions are a crop where it is imperative

that good seed be used and this will give the very best of results.

Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$1.90.

Large Red Wethersfield—The standard red sort, of large size, flattened onions of purplish red; very productive and good shippers. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 50c; lb., \$1.75, postpaid.

ONIONS—Continued

Australian Brown.—An extra early, sure cropping variety, with long keeping qualities. A sweet, mild flavored onion, with crisp, white flesh, covered with a bright reddish-brown skin. Largely used for growing onion sets and equally good for market purposes. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 50c; lb., \$1.70, postpaid.

White Bunching.—A strain of White Portugal used for green bunching onions. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 50c; lb., \$1.75, postpaid.

White Queen.—Small white pickling onion; also used for growing white sets. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 50c; lb., \$1.75.

White Portugal or American Silverskin.—This variety is considered the best of the white onions by many growers and is extensively used for bunching onions. A medium early sort of good size, somewhat flattened in shape, with clear white skin. Pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 90c; lb., \$3.00, postpaid.

ONION SETS

Yellow Onion Sets.—20c per lb., postpaid. E. or F., 15c lb.; 10 lbs. or more at 13c.

Onion seed is scarce this season and prices are higher.

PARSNIPS

Culture same as carrots, except time of planting, which should be about May 1st.

***Gill's Tender Heart.**—This strain is developed from seed we received over twenty-five years ago from an old resident in Portland, which proved so far superior to any other that we have never ran out of the seed, but have been selecting from the best from year to year. Unlike other parsnips the heart is tender, never tough; roots are smooth, hollow crown, thick and heavy at the top, tapering abruptly, making it easy to dig. We have the exclusive seed of this champion garden or market parsnip. Do not fail to try this parsnip, for it is unexcelled anywhere.

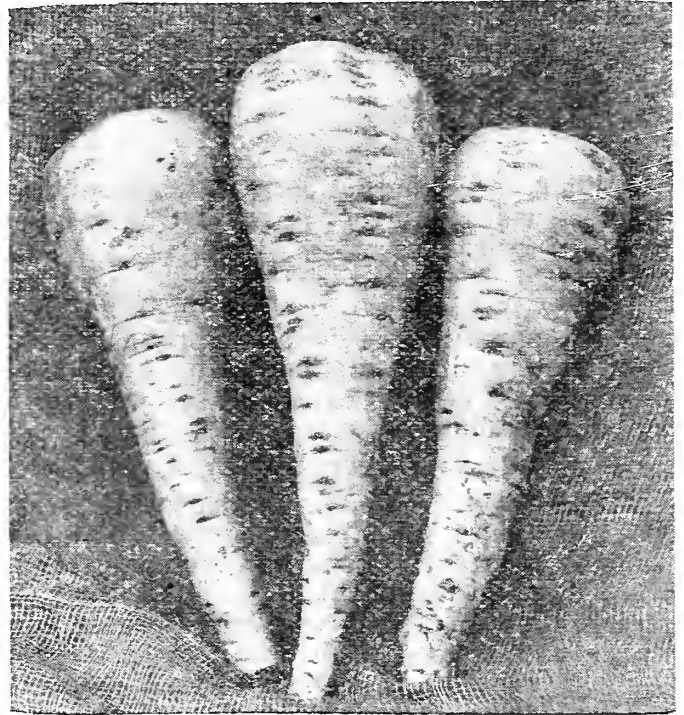

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 60c, postpaid.

***Gill's Success.**—Seed crop failed.

PARSLEY

***Dark Moss Curled.**—Dark green mosslike leaves. One of the very best sorts.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Gill's Tender Heart Parsnip.

PEAS

Note Our New Plan.— $\frac{1}{4}$ lb. of peas for the packet price, except on novelties. Applies on third zone and under, over that we send 2 oz. for pkts.

Culture.—Plant as early as the ground can be worked in the Spring. Peas will not reach perfection if planted after May 1st, although they will make a fair crop. They should be well rooted before warm weather begins. If planted during February and March they will mature before the aphids get started.

***Early Morn.**—The best early pea and fast becoming the market favorite. The earliest of the wrinkled peas; ahead of either Gradus or Thomas Laxton. The size of the pods is enormous for such an early pea, many pods containing eight to ten peas. Exceptionally heavy yielder and vigorous, growing three to four feet high. The money-maker in peas.

Imagine pods as large as Telephone peas and a few days ahead of Gradus. Those who planted this pea last year were surprised and are loud in their praise for it. The peas are dark green, large and of the finest flavor.

Pkt., 2 oz., 10c; $\frac{1}{4}$ lb., 15c; lb., 30c. E. or F., lb., 25c; 5 lbs. at 20c lb.

***American Wonder.**—This old stand-by is too well known to need description. A dwarf early growing pea; very productive and sweet as sugar in flavor. True seed.

Pkt., 10c; lb., 25c, postpaid; E. or F., lb. 20c; 5 lbs. at 15c lb.

***Thomas Laxton.**—An extra early wrinkled pea only three or four days later than Gradus. Pods square at the ends, dark green color. The sweetest of the first early peas and a very heavy producer. Vines grow two to three feet high. True seed. Pkt., 10c; lb., 25c; E. or F., lb., 20c; 5 lbs. at 17c lb.

***Telephone.**—The standard main crop pea; tall growing habit, vine, pod and peas of light green color; enormous yielder and one of the best sellers on the market.

The seed we offer is true Telephone and can be relied upon.

Pkt., 10c; lb., 25c, postpaid; E. or F., lb., 20c; 5 lbs. at 15c lb.

Dwarf Telephone.—A short growing strain of Telephone peas. Eighteen to twenty inches high. Pkt., 10c; lb., 25c postpaid. E. or F., lb., 20c; 5 lbs. or more at 17c lb.

Gradus.—A large podded first early sort extensively grown by market gardeners. Pkt., 10c; lb., 25c, postpaid. By E. or F., lb., 20c; 5 lbs. at 17c lb.

PEAS—Continued

***Little Marvel**—Superior to American Wonder, with larger pods and only a few days later. Flavor fully as good. Pkt., 10c; lb., 25c. E. or F., lb., 20c; 5 lbs. or more at 17c.

Laxtonian—Enormous pods, well filled, on dwarf vines. We recommend this new pea very highly. Pkt., 2 oz., 10c; lb., 30c. By E. or F., lb., 25c.

Collection offer—Eight packets, one of each kind of peas for 50c, postpaid.

Market gardeners who buy seeds in quantity should submit us a list of their wants for quotations.

PEPPERS

Start plants in hot beds or in pots in a warm room in March. Transplant in open ground May 10 to 20, rows 3½ feet wide, 2 feet in rows.

Crimson Giant—Extra large peppers, of beautiful crimson when ripe. Their large size make them fine for stuffing. It ranks among the earliest and most prolific. Pkt., 10c; ¼ oz., 15c; ½ oz., 30c; 1 oz., 55c; ¼ lb., \$1.50.

Chinese Giant—The largest of the mild red peppers. One of the best for stuffing. A little later than Crimson Giant.

Pkt., 10c; ½ oz., 30c; oz., 50c; ¼ lb., \$1.50.

Golden Dawn—Golden-yellow pepper; mild and sweet. Per pkt., 5c; oz., 30c; ¼ lb., 85c.

POTATOES

Plant early kinds as early as the ground will work. Late varieties May 20 to June 20. Rows 3½ feet wide, 20 inches in row. Cut to one or two eyes.

EARLY VARIETIES

***Early White Albino**—Among the very earliest, pure white tubers, slightly flattened, flesh white and fine grained. This potato will mature early enough to permit second crop of cabbage, cauliflower, ruta bagas, etc.

***Early Rose**—The old favorite, true seed.

***Big Cropper**—This enormous yielder, while yet little known on this coast, we think will soon be a leader. Tubers pure white, somewhat flat and of good length. It is early; in season about the same as Early Rose or Sunrise. It is of good quality and cooks in good shape. Growers will make no mistake in planting this potato.

***Irish Coblér**—Very early, shape round-oblong with white skin, good quality.

***White Mountain**—A vigorous heavy yielding first early sort. Skin white and shape round-oblong. Good quality.

LATE VARIETIES

***Snow**—We have grown this for two seasons and are well pleased with its yielding qualities. Nearly every potato grows perfect in shape, roundish, slightly flattened, with snow-white skin and flesh. Produces very few unsalable potatoes. Can be planted closer than the Burbank and still produce good sized tubers.

***Pride of Multnomah**—A new potato that is superior to the Burbank. A strong, vigorous grower producing perfect white potatoes of the Burbank shape.

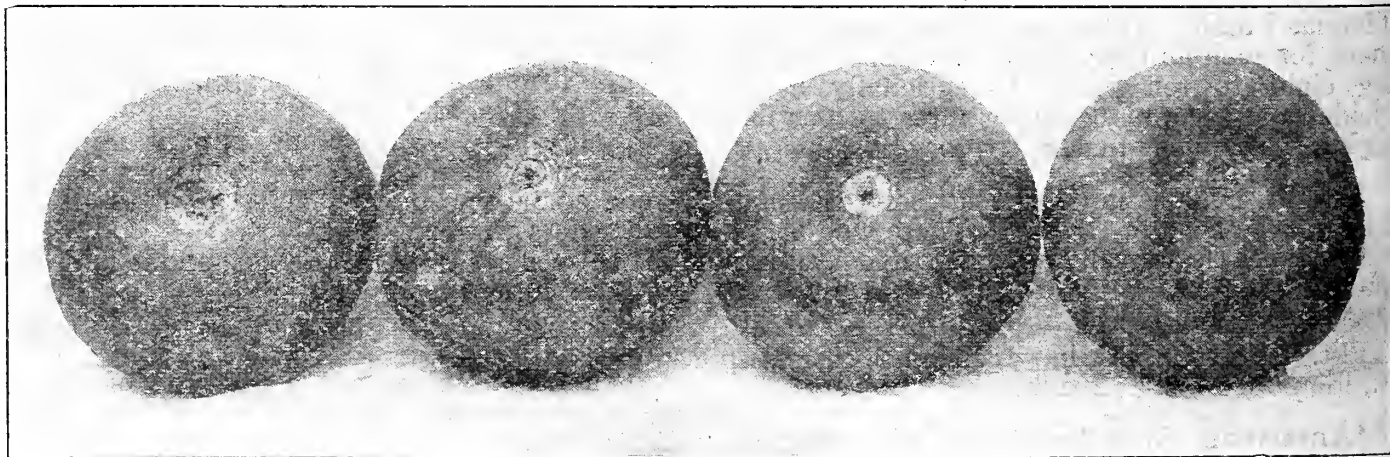

***Burbank**—The standard sort.

PRICES ON POTATOES

By mail postpaid at 20c per lb.; 3 lbs. for 40c. For quantity please drop us a card.

PUMPKINS

Plant May 10 to 20 in rows 10 feet wide and 8 feet in the row; about 8 or 10 seed to the hill; thinning to two good plants. Turn vines with the row to permit cultivation. Use 200 lbs. Utah land plaster to the acre, plowing it in.

Winter Luxury—The Best Pie Pumpkin

WE CARRY FRUIT TREES AND DUTCH BULBS. SEND FOR OUR COMPLETE LIST.
SUBMIT YOUR LIST FOR QUOTATIONS.

PUMPKINS—Continued

*Connecticut Field, or Jack O'Lantern

—The common field pumpkin grown for stock feeding and jack lanterns. Some prefer it for pies. Our seed is carefully selected for jack lantern shapes. Rich orange colored skin. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 50c, postpaid; E. or F., lb., 45c.

Improved Large Cheese—Heavy, thick meated pumpkins with deep salmon flesh, cooks fine grained and sweet; excellent for pies. Rather flat fruit, flesh orange color. A heavy yielder and fine for stock.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

***Winter Luxury Pie**—This is fast becoming the standard pie pumpkin wherever it becomes known. We were among the first to introduce this pumpkin to the Portland trade and have many customers who will refuse every other. Medium sized, covered with heavy nettings, the flesh is thick, of rich yellow color and cooks fine grained, without strings, and requires much less of eggs to make good pies than other kinds. A good keeper and very prolific. Our strain of seed produces fruit of rich, orange colored skin, while that usually offered is of lemon yellow type. We have also bred up the size of this pumpkin.

Pkt., 10c; oz., 15c; $\frac{1}{4}$ lb., 25c; lb., 85c, postpaid.

RADISH

Note.—Express or Freight price 5c less per lb.

White Pearl—The best of the white radishes; roots five to seven inches long; of a beautiful pearly white color. Stands fine without going woody. Similar in shape to White Icicle, but superior in quality. Flesh tender, crisp and sweet.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 25c; lb., 85c.

Early Scarlet Globe—Beautiful scarlet globe-shaped radish, of quick maturity and exceptionally fine flavor. Good market sort.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Early Scarlet Turnip, White Tipped—Turnip-shaped radishes, scarlet with white tips. A popular market radish sold by the vegetable men the year around. Excellent quality and extremely early.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 60c.

Crimson Giant—A crimson turnip-shaped radish that combines large size with extreme earliness. A splendid radish that does not go pithy very soon.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Long Bright Scarlet, White Tipped—A beautiful radish; clear, bright scarlet, the roots which grow about six inches long, are tipped white. This is a fine radish of good quality.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 65c.

Cincinnati Market—An excellent radish of scarlet color; five to seven inches long; skin very thin, flesh crisp, brittle and of good flavor.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 65c.

White Icicle—A splendid white radish of long shape and with mild flavor. This radish is a general favorite.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 60c.

Early Long Scarlet, Short Top—Long, slender roots, five to six inches in length, of bright scarlet color. A standard sort, early and remaining long in good condition. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 60c, postpaid.

Japanese Radish—A sensation was caused by the appearance on the public market at Portland of this new radish. Roots three feet long and two inches in diameter sold for five cents each. They keep through the winter like carrots or rutabagas. The flavor is excellent. Pkt., 10c; oz., 20c; lb., \$1.25.

Long Black Spanish—Long black winter radish. Sow in August.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Scarlet China—Roots of bright scarlet color; fine quality. Sow in September for winter use.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Collection Offer—Eleven pkts. radish, one of each kind, sent for 35c, postpaid.

Salsify or Vegetable Oyster

***Mammoth Sandwich Island**—A good sort and most generally planted. Cultivate same as carrots.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.25.

Spinach

Sow in drills 16 to 20 inches apart; thin to 6 inches. For early spring use sow in the fall, or sow in early spring for later use.

Prices on all varieties: Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 15c; lb., 45c, postpaid. E. or F., 40c lb.

Victoria—A good long standing sort, with large, thick, dark green leaves, slightly crumpled. Good for market or garden.

Savoy Leaved—An early sort generally used for fall sowing. Leaves crumpled. A hardy, rapid grower.

Long Standing Prickly—A prickly seeded sort used for fall sowing, but is also adapted to spring use.

Viroflay or Thick Leaved—Fine for market gardeners, rapid grower, forming a cluster of large, thick leaves slightly crumpled.

Sunflower

***Mammoth Russian**—This is one of the heaviest yielders and produces extra large heads well filled with large plump seed.

oz., 5c; $\frac{1}{4}$ lb., 10c; lb., 25c, postpaid; E. or F., lb., 20c.

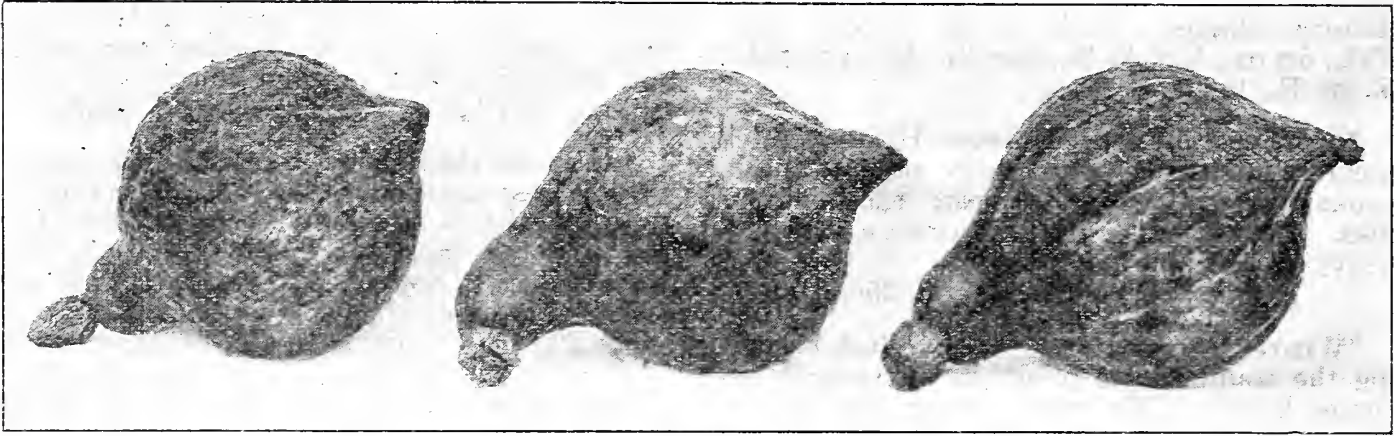

Tobacco

Connecticut Seed Leaf—This is one of the earliest maturing sorts for our Northwest climate.

Pkt., 5c; oz., 25c.

SQUASH

Plant from May 10th to 20th in hills 10 feet by 10 feet. 8 to 10 seeds to the hill. Thin to two strong vines. Sow 200 pounds of land plaster to the acre and plow in.

True Type Hubbard Squash

***Underwood's Blight Resistant.**—This new squash is the result of crossing three varieties together and has now been tested for four years. In sections of Eastern Oregon it is very hard to grow squash owing to blight, but it does not affect this variety. It is a heavy producer and the squash are of good quality. The colors are not fixed but most of them are deep green while others are orange-yellow. If you are troubled with blight try this variety.

Pkt., 10c; oz., 25c; ¼ lb., 60c; lb., \$1.75.

***True Hubbard**—The standard squash, and while we do not consider it equal to the Delicious in flavor, it is a heavier yielder and is better known in the market. We have a true stock of seed, carefully selected for color, shape and quality.

Pkt., 5c; oz., 15c; ¼ lb., 30c; lb., \$1.00.

***Delicious**—Mr. Gregory's late introduction; we consider the finest grained, driest cooking and sweetest squash in cultivation. Of medium size, top shaped with greenish-black skin, flesh very thick, orange-colored, with small seed cavity. Try this squash and be convinced that it is the best that grows. True seed of our own growing.

Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., \$1.25.

Mammoth Summer Crookneck.—Grows larger than the common sort. Fine for Summer use.

Pkt., 5c; oz., 15c; ¼ lb., 30c.

Mammoth White Bush Scallop—Early; large, pure waxy whiteskin, somewhat flattened in shape.

Pkt., 5c; oz., 15c; ¼ lb., 30c.

TOMATOES

Plant seed in box inside or in hotbed from February 15 to March 1. Transplant May 10 to 20 in rows 6 feet wide and 5 to 6 feet in rows. A light loamy soil well cultivated and fertilized is best.

***Gill's Select Earliana**—The earliest, smooth, first-class tomato, and will ripen a full crop in the Northwest states. Fruit a bright red, very smooth, deep from stem to blossom end; very solid, with few seeds and of fine flavor. Sets plenty of tomatoes that ripen in a short season. In selecting our stock seed in the season of 1910 we found one cluster of fruit which ripened even all over, not having any green color about the stem so common with this and many other varieties. Our seed is now all grown from this start, producing a more even colored Earliana than any yet offered. The expense of producing seed here is much more than the Eastern states and since we use only choice tomatoes that would bring good prices in the market, it is necessary to ask the following prices on seed: Pkt., 10c; ¼ oz., 20c; oz., 60c; ¼ lb., \$2.00.

Perfection.—A medium large tomato of deep crimson scarlet. Fruits nearly round and uniformly smooth and of best quality. Ripens in mid-season. Extensively used for canning.

Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

***Bonny's Best Early.**—On account of its heavy production, uniform shape, exquisite deep scarlet color, fine flavor and medium size this is the best market gardeners' tomato. Only two weeks later than Select Earliana. Gave better satisfaction last Summer on the public market than any tomato sold there.

Pkt., 10c; oz., 40c; ¼ lb., \$1.25.

***Chalk's Early Jewel**—A reliable sort; while larger fruited than Bonny's Best, it is not quite so uniform in shape; a heavy yielder of good flavored fruit. Our seed is carefully selected.

Pkt., 5c; oz., 35c; ¼ lb., \$1.10.

Early Dwarf Quarter Century—Earliest of the dwarf or tree tomato type. The fruit is bright red, solid and meaty, smooth and free from cracks.

Pkt., 10c; oz., 40c; ¼ lb., \$1.25.

Stone.—One of the largest and most solid, bright red varieties. Fruit nearly round, slightly flattened, exceptionally smooth and uniform. Unusually fine for slicing and canning.

Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50

TOMATOES—Continued

***Yellow Pear**—Used for preserving, extra early and produces an abundance of yellow pear-shaped tomatoes. Pkt., 5c; oz., 40c.

Ground Cherry or Husk Tomato—Prized for preserves, pies and sauce. Will keep into the winter. Pkt., 5c; oz., 30c.

Red Pear—Same as Yellow Pear except color. Pkt., 5c; oz., 40c.

TURNIP

Deduct 5c per lb. by Express or Freight on turnips and rutabagas. Sow broadcast from August 1 to 20th for late turnips.

Extra Early White Milan—Among the earliest; roots clear white, smooth, flat and good quality. The best for early planting in the spring or for late fall sowing.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00.

Early Snowball—An extra early turnip, snow white, crisp and solid. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

White Egg—A quick-growing, egg-shaped, smooth, pure white variety with flesh very sweet, firm and mild. The best table turnip.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 60c.

Cow Horn—A large, long rooted, white turnip, largely used for stock feeding.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 50c.

***Pomeranian White Globe**—A large globe shaped, smooth, white turnip. Good either for stock or table; resists the worms the best. One of the best keepers.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 60c.

Orange Jelly, or Golden Ball—The best yellow sort for market or family use. Root medium sized, round and smooth, with yellow skin and flesh.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 70c.

***Purple Top White Globe**—We consider this the best all round late turnip for fall and winter use. Its beautiful color, pure white with purple top, combined with its smooth globe shape, fine sweet flavor and its wonderful productiveness, puts this turnip in the front class for either market or home use. We have an unusually fine strain of this seed.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 50c.

Purple Top Yellow Aberdeen—This is argely grown for stock feeding. The roots are yellow with purple top, the flesh yellow and of fine texture. A fine keeping sort.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 60c.

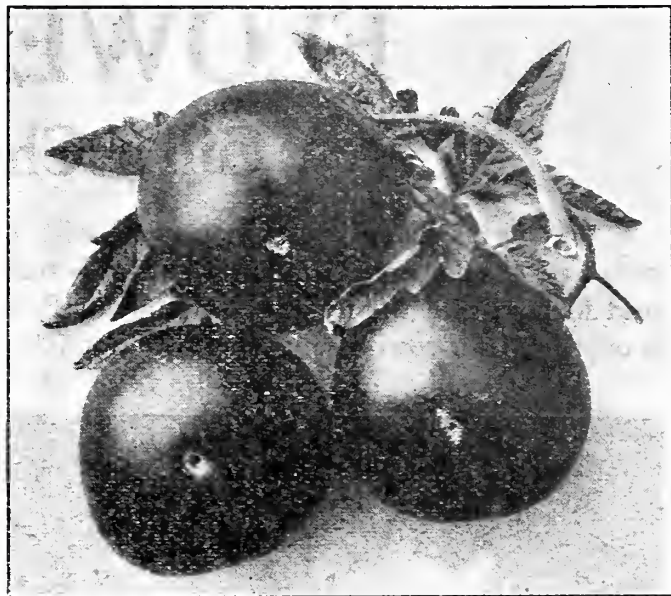

CANNAS.

City of Portland—Named after Portland by a large Eastern firm; this variety is especially suited to our climate. On account of its beautiful glowing pink color and erect habit it is considered one of the best novelties in Cannas. Foliage, attractive green. Height $3\frac{1}{2}$ feet.

Each, 75c.

Allemania—Dark salmon with golden marking, green foliage, 6 feet high.

King Humbert—Large flowers produced in giant trusses, a brilliant orange scarlet with red markings, foliage broad and massive, of a rich, coppery bronze. 5 feet high.

Gill's Select Earliana Tomato

RUTA BAGAS

Sow in drills, 3 feet wide; thin to 6 inches apart. May be planted from June 15th to July 15th. The later sowings make roots of the best quality.

***Improved Purple-Top Yellow**—We find this the best all-round Ruta Baga. Produces nice, smooth, globe-shaped roots free from side roots. The best for table use and very rich and productive for stock feeding. It is early and will mature good roots, planted late in the season. Good seed from selected roots.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 20c; lb., 65c.

Sweet Russian—One of the best white meated Ruta Bagas. A good yielder.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 20c; lb., 60c.

VEGETABLE ORANGE

Grows somewhat like a muskmelon; small-sized, round-shaped, orange-colored fruit; fine for sweet pickles and preserves; yields heavy in this climate.

Pkt., 5c.

MISCELLANEOUS

Caraway—Used in confectionery, cakes and bread. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c.

Dill—Used as a condiment and for flavoring cucumber pickles.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c.

Flax—oz., 5c; lb., 25c.

Sugar Cane, Albaugh Early—An early maturing sort suited to our climate.

Oz., 5c; lb., 25c.

Musafolia—Enormous plants with leaves often 5 feet long and 2 feet wide. Green foliage with bronze margin. This variety makes no blooms.

Wyoming—Bronzy-purple foliage with immense spikes of massive orange flowers.

Prices on cannas, roots, 15c each, \$1.25 per doz., postpaid; plants, 30c each; \$3.00 per doz.

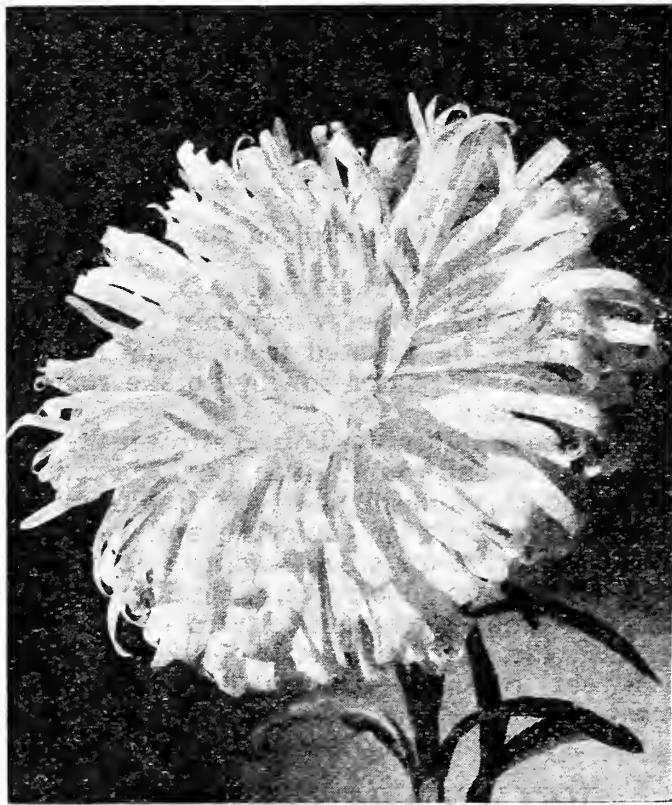

DUTCH BULBS.

Hyacinths, Tulips, Daffodils, Jonquils, Crocus, Spanish Iris. Descriptive price list sent on application. Special discounts given.

FLOWER SEEDS

Gill's Choice Asters

Wonderful progress has been made with Asters in recent years and today they are one of our very best cut flowers. No flower garden is really up-to-date without them. For early flowers plant seed in box, cold frame or hot bed about February 15 to March 1, transplanting as soon as frost is over, or later sowings may be made for fall flowers.

Type of Crego Asters

AGERATUM.

Beautiful annuals suited for boxes, pots and borders.

Blue Perfection—Large, deep blue; compact growth. Pkt., 10c.

Dwarf White—8 inches high. Pkt., 5c.

Mixed—Pkt. 5c.

AFRICAN DAISY.

Showy annuals from South Africa. Sow seed same as asters or petunias and plant in sunny position. They bloom the greater part of the summer.

Aurantiaca.—Flowers 2½ to 3 inches across, of a rich glossy orange gold, with dark disc and halo. Pkt., 10c.

New Hybrids.—A grand new mixture varying in color from the purest white through the shades of yellow and orange to rich salmon shades, many being zoned with these colors around a black disc. Pkt., 20c.

ALYSSUM.

Sweet Alyssum, Maritimum—Hardy annual, blooming with white flowers in early spring. Trailing habit. Pkt., 5c.

Little Gem—Of dwarf compact habit; about four inches high, with white blossoms. The best sort for edgings. Pkt., 5c; ½ oz., 30c.

BRANCHING ASTERS.

Tall plants of branching habit, bearing good-sized flowers, petals somewhat quilled and incurved. This type makes good stiff, long stems and stand handling best.

Dreer's Superb Late Branching—Chrysanthemum-like flowers five inches in diameter. Makes good long stems and blooms quite late. We recommend this type of asters. Offered in the following colors: Pure White, Shell Pink, Deep Rose, Deep Purple and Lavender. Pkt., 10c.

Crimson Late Upright—This is a flower of a color unusual in asters, being bright crimson. Very free blooming. Pkt., 10c.

Comet Asters

These are the largest flowering sorts, with long narrow petals, curving slightly back, those about the center curved and twisted. The flower is often six inches in diameter and carried on long stems. We offer fine seed of the following sorts:

***Giant Crego Asters**—One of the most desirable types of aster. Flowers large and fluffy averaging 4 to 6 inches in diameter and full to the center. Stems 20 to 30 inches long produced on strong vigorous plants. Fine for garden effect or cut flowers. We offer Crego Asters in Shell Pink, Rose Pink, White, Violet Blue, Lavender and Mixed. Pkt., 10c.

Gill's Fancy Mixed—This is a splendid mixture of about 20 reliable sorts and will contain nearly every color known in asters. There are few better mixtures on the market than this and it is sure to please.

Pkt., 10c; ¼ oz., 75c.

AMARANTHUS.

Brilliant foliage annuals growing 3 to 5 feet high. Do best in a hot sunny location.

Candatus.—Blood red, drooping. Pkt., 5c.

Sunrise.—The most brilliant. Foliage bronzy crimson, each branch tipped with bright, scarlet carmine leaves. Pkt., 10c.

Tricolor.—Leaves red, yellow and green. Pkt., 5c.

BALSAM.

Hardy annuals growing one to two feet high. Plant inside or in hotbed in March, plant out after danger of frost is over.

Mixed Double Tall—Two feet. Pkt., 5c.

SEE OUR SPECIAL FLOWER SEED OFFER ON
PAGE 27, 10 PKTS. OF FLOWER SEED FOR 20c.

BEANS, SCARLET RUNNER.

A fine climber for porches or trellis.

Pkt., 5c; ½ lb., 25c.

BELLIS OR DOUBLE ENGLISH DAISY.

A favorite perennial plant for bedding. Blooms early in the Spring.

Double Mixed—All colors. Pkt., 10c.

BRACHYCOME.

Swan River Daisy.—Free flowering plants, 9 inches high, covered through the Summer with small white or blue flowers. Pkt., 5c.

CALENDULA, POT MARIGOLD.

The old fashioned marigold, splendid for borders. A hardy annual that blooms from early to late.

Double Mixed—All colors. Pkt., 5c.

Orange King—Large double flowers of a dark orange red. Pkt., 5c.

CALLIOPSIS

Showy annuals, of easy culture, blooming all summer. Sow in April where they are to bloom.

Crimson King—Crimson garnet. Pkt., 5c.

Golden Wave—Golden yellow with brown centers. Pkt., 5c.

Coronata—Large pure yellow flowers, excellent for bedding. Pkt., 5c.

Choice Mixed—All colors. Pkt., 5c.

CARNATION MARGUERITE.

There are few flowers which give such splendid results for cut flowers and with their easy culture and quick results they should be more planted.

Separate Colors.—In scarlet, white, rose, at 10c per pkt.

Giant Marguerite mixed.—This is one of the finest mixtures and produces immense flowers of every hue known in carnations. A border of these will make a grand showing. Pkt., 10c.

CANTERBURY BELLS.

This old fashioned flower is deservedly becoming very popular and is very easy of culture. Plant seed in a box or frame in early Spring and set out in the position you wish them to bloom in the coming season. They can also be started by planting seed in the open ground, covering very lightly, and overlaying the bed with paper, to prevent the seed from drying out until they have germinated.

Cup and Saucer Bells.—The largest and best type, with cup and saucer shaped flowers. We offer these in separate colors as follows: **White, Blue and Pink and Mixed** at 10c pkt.

Medium.—(Single Canterbury Bells). The old fashioned type with bell shaped blooms. Offered in **Blue, Rose and White** at 10c pkt. **Mixed** at 5c pkt.

Medium, Double Mixed. Pkt., 10c.

Peach Bells Mixed.—Peach Bells are a true perennial and one of the best of the bellflowers. **Blue, white and purple, mixed**. Pkt., 10c.

CANDYTUFT.

Sown in the fall, will flower in early spring; sown in April will bloom in June. Hardy and easy of culture.

Empress—Finest white. Pkt., 10c.

Lavender—Delicate rosy lavender. Pkt., 10c.

Carmine—Bright carmine rose. Pkt., 10c.

Mixed.—All colors. Pkt., 5c.

CASTOR BEANS.

Highly ornamental plants satisfactory for massing or as center plants for beds. Offered in mixture. Pkt., 5c; oz., 20c.

CELOSIA PLUMOSA.

Thompson's Superb—Of pyramidal growth attaining a height of a little more than 2 feet, and producing graceful, feathery plumes of the most brilliant crimson. In sunlight the rich color of the flower spikes is beautifully contrasted with the bronze-colored foliage. Pkt., 10c.

Thompsoni Magnifica—Similar to the preceding except in color, which vary in the most magnificent shades, ranging from the clearest yellow to the darkest blood-red. Pkt., 15c.

Golden Plume—Bright, golden-yellow plumes. Pkt., 10c.

CELOSIA CRISTATA.

(Cockscomb).

Free-blooming annuals, growing best in rather light soil, not too rich; make grand border plants and are attractive for pots. Seed can be sown under cover in early spring and planted out in May, or may be sown out of doors in May.

Empress—Combs of colossal proportions; they have been grown measuring 45 inches from tip to tip; rich crimson.

Pkt., 10c; ¼ oz., 50c.

CENTAUREA.

Royal Sweet Sultans—Beautiful, sweet-scented, artistic flowers, borne on long stems. Fine cut flowers. Sow early in the spring. **Finest Mixed**. Pkt., 5c.

CHRYSANthemum.

Double Mixed.—Annual type with yellow and white shades. Pkt., 5c.

Single Mixed.—Annual mixture of many colors. Pkt., 5c.

CLARKIA.

Valuable annuals, growing 2 to 2½ feet tall. The leafy branches covered with double flowers are fine for cutting. Easily grown.

Scarlet Queen.—Orange scarlet. Pkt., 10c.

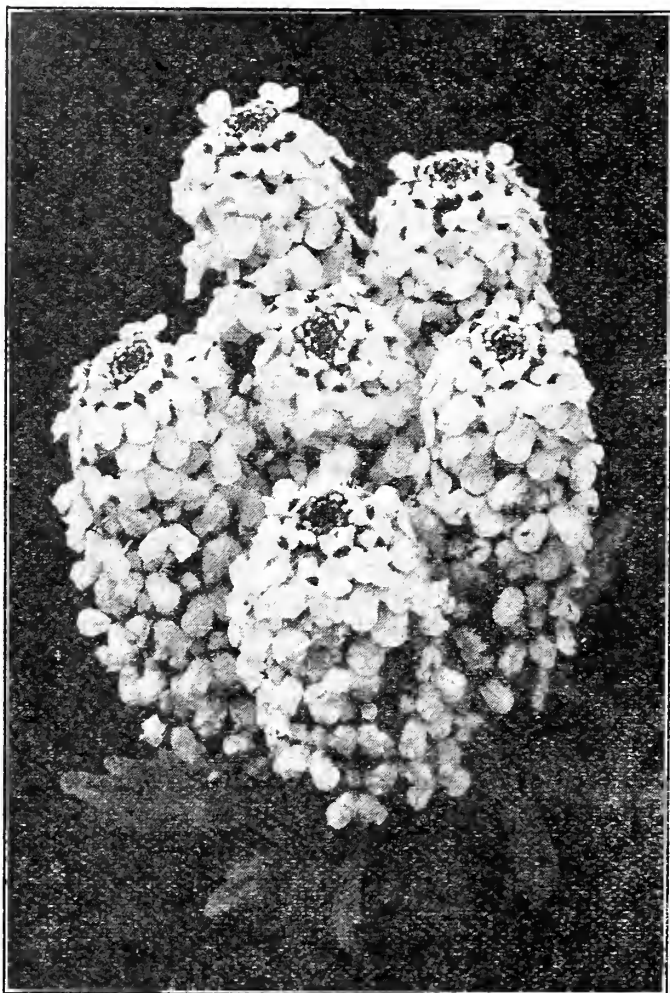

White Prince.—Fine white sort. Pkt., 10c.

Salmon Queen.—Salmon pink. Pkt., 10c.

Double Mixed.—All shades. Pkt., 5c.

COREOPSIS.

Lancelata Grandiflora.—One of the easiest of all hardy perennials to grow, blooming the first year from seed, if sown early. Large, showy, bright yellow flowers produced freely from June until frost. A splendid cut flower. Seed of our own growing. Pkt., 5c; ½ oz., 25c.

Empress Candytuft.

CORNFLOWERS, CENTAURIA CYANUS.

The common Bachelor's Button.

Single Mixed—All colors. Pkt., 5c.

Double Mixed—Various colors. Pkt., 5c.

Double Blue.—A large flowering semi-double sort especially fine for cutting. Pkt., 10c.

COSMOS.

Hardy annuals which, planted after danger of frost in the open, will bloom in the late fall when flowers are scarce. Fine cut flowers.

Mammoth Perfection Cosmos—A strain of extra large flowers. Offered in Pink, Crimson and White at 10c per pkt.

Mixed—All colors. Pkt., 5c.

Extra Early Cosmos—Sown in April will bloom in July and August. Mixed colors. Pkt., 5c.

CUCUMBER, WILD VINE.

Quick growing annual climber. Foliage bright green with sprays of white flowers. Pkt., 5c.

DIANTHUS, PINKS.

Biennials growing about a foot high. Fine for borders.

China Pinks—Mixed, double. Pkt., 5c.

Diadem Pink—Beautiful double flowers; mixed, of various tints of lilac, crimson, purple, to very dark purple, with the outer edges fringed and nearly white. $\frac{1}{4}$ oz., 30c; pkt., 10c.

Salmon King—Salmon rose. Pkt., 10c.

Snowball—Large double white. Pkt., 5c.

Fireball—Blood red, good contrast to the above. Pkt., 5c.

Single Royal Pinks—Improved single Japanese. Pkt., 5c.

Finest Mixed—A mixture containing various types of pinks. Pkt., 5c.

HARDY PINKS.

Double Dwarf Clove Pink.—Compact growth; early flowering. Possess a spicy clove fragrance. Perennial. Pkt., 10c.

DAHLIA SEED.

Growing dahlias from seed is very interesting. They should be started like asters and transplanted about May 1st to 20th.

Choice Mixed—This mixture embraces many colors in different types of dahlias. Pkt., 15c.

DELPHINIUM.

This is the perennial larkspur and is one of the best hardy plants grown. The seed should be started like asters and transplanted. If started early they will bloom during the Fall and will bring a nice display of bloom the second season. We have a splendid mixture of our own saving, containing light and dark blue shades. Pkt., 15c.

ESCHSCHOLTZIA.

(California Poppy)

Hardy annual, sow in open during April.

Single Mixed—All the colors. Pkt., 5c.

Alba—Pure white. Pkt., 5c.

Scarlet—Rich orange scarlet. Pkt., 10c.

Orange—Pure orange. Pkt., 5c.

FOUR O'CLOCK.

Well known free flowering favorite that does well anywhere. Give plants 12 to 18 inches of room. Fine mixed colors. Pkt., 5c; oz., 15c.

GAILLARDIA PERENNIAL.

*Finest Mixed—This is one of the finest perennials and blooms all summer and fall, containing shades of yellow and yellow with red halos. Pkt., 10c.

GODETIA.

Pretty free flowering annuals growing 18 inches high. They do best in rather poor soil.

Duchess of Albany—Pure white. Pkt., 5c.

Mixed—All the colors. Pkt., 5c.

Dwarf Crimson Glow—The best Godetia to date. Dwarf compact plants covered with a mass of glowing crimson flowers. Pkt., 10c.

Rosamond—Similar to above with large shell pink flowers. Pkt., 10c.

GOURDS, ORNAMENTAL.

Culture, similar to cucumbers or musk melons.

Fine Mixed—Several sorts in mixture. Pkt., 5c.

GRASSES, ORNAMENTAL.

Cloud Grass—Airy and graceful annual, looks like a line of mist when in bloom.

Pkt., 10c.

Purple Fountain Grass—Graceful, purple plumes and green foliage. An effective annual for borders. Pkt., 10c.

GYPSOPHLIA, BABY'S BREATH.

Elegans Alba—Fine annual with white blooms, fine for mixing with bouquets.

Pkt., 5c; oz., 30c.

Muralis.—An annual sort forming mounds of green 8 to 10 inches across and covered with little pink flowers from early season to frost. Fine for edging. Pkt., 10c.

Perennial—Once started these will bloom year after year. Pkt., 10c.

HELICHRYSUM.

Straw Flower.—Double flowers on plants 2 feet high. Fine everlasting flowers to put away for Winter; colors in pink, yellow, scarlet, and violet, mixed together. Pkt., 5c.

HELIOTROPE.

Start indoors, plant out in May. Half hardy.

Lemoines Giant—Double the size of the old sorts. Pkt., 10c.

HOLLYHOCK.

This old-fashioned flower is taking well for back-ground effects. A hardy perennial, blooming very little the first year.

Double Sorts.

Separate Colors—In orange, maroon, red rose, salmon rose, white and yellow. Any color. Pkt., 10c.

Choice Mixed—All colors, double. Pkt., 5c.

Allegheny Mixed—Single Fringed bloom. Pkt., 10c.

Single Mixed—All colors. Pkt., 5c.

KOCHIA, STANDING CYPRESS.

An easily grown annual, which sown thinly in the Spring forms a cypress like hedge of the most lively green, of perfect symmetry; by mid-summer attains a height of 3 feet. In the Autumn the whole plant becomes a deep red. This is a very useful plant and should be more grown. Pkt., 10c; $\frac{1}{4}$ oz., 25c.

LARKSPUR ANNUAL.

Hardy annuals growing two or three feet high, splendid for beds or cutting.

Finest Double Mixed. Pkt., 10c.

LAVENDER.

Well known, hardy perennial growing about three feet high. Very fragrant. Pkt., 5c.

LOBELIA.

Desirable for pots, edges or hanging baskets.

Crystal Palace Compacta—Best dark blue. Dwarf, compact plants. Pkt., 10c.

Speciosa—Dark blue flower and dark foliage. Trailing. Pkt., 5c.

White Gem—Snow white. Pkt., 10c.

Mixed Dwarf—All colors in dwarf varieties. Pkt., 5c.

MARIGOLD.

Hardy annuals of easiest culture.

Dwarf French—Fine colors, mixed, very double; 1 foot. Pkt., 5c.

Tall French Mixed—Double. Pkt., 5c.

Gold Striped—Brownish red, striped golden yellow. Pkt., 5c.

African Varieties.

Pride of the Garden—Immense golden yellow flowers, densely double, compact plant 15 to 18 inches high. Pkt., 10c.

Large African Mixed—Double, orange and lemon. Pkt., 5c.

Orange Prince—Large double, deep, rich, golden orange. Pkt., 10c.

MIGNONETTE.

Keep up a succession of flowers by sowing in April and July.

Salmon Queen—Strong, robust habit, with fine spikes of salmon red flowers, intensely fragrant. Pkt., 10c.

Defiance—Extra large spikes, 15 to 18 inches long, deliciously fragrant. Pkt., 10c.

Mixed.—Various colors mixed. Pkt., 5c.

MORNING GLORY.

Climbing Mixed—All colors, 15 feet.

Pkt., 5c.

Dwarf Mixed—All colors, 1 foot. Pkt., 5c.

MYOSOTES, FOR-GET-ME-NOTS.

Hardy perennials succeeding best in shady locations. Will bloom the first year if sown early.

Robusta Grandiflora—Large bright blue flowers. Pkt., 5c.

Everblooming Myosotis.—Large, clear blue flowers, blooming from May to Autumn. Pkt., 10c.

NASTURTIUMS.

Sow in April in rows, thin to 2 to 3 inches apart.

Dwarf Varieties.

Bronze—Bronze orange. Pkt., 5c; oz., 15c.

Golden King—Rich, golden yellow.

Pkt., 5c; oz., 15c.

King Theodore—Crimson maroon, dark foliage. Pkt., 5c; oz., 15c.

Pearl—Creamy white. Pkt., 5c; oz., 15c.

King of Tom Thumbs—Dark scarlet, dark leaves. Pkt., 5c; oz., 15c.

Finest Mixed—All colors.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., 75c.

Tall Varieties.

King Theodore—Crimson maroon, dark foliage. Pkt., 5c; oz., 15c.

Orange—Pure orange. Pkt., 5c; oz., 15c.

Pearl—Creamy white. Pkt., 5c; oz., 15c.

Rose—Ruby rose. Pkt., 5c; oz., 15c.

Jupiter—Giant yellow. Pkt., 5c; oz., 15c.

Spitfire—Fiery scarlet. Pkt., 5c; oz., 15c.

Giant of Battles—Sulphur yellow blotched red. Pkt., 5c; oz., 15c.

California Giants Mixed—All colors.

Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Ivy Leaved Tall Mixed—Pkt 5c; oz., 20c; $\frac{1}{4}$ lb., 50c.

NICOTINA, FLOWERING TOBACCO.

Finest Mixed—A splendid mixture of colors. Pkt., 5c.

PANSIES.

For plants see list of perennials.

May be sown early inside or planted in the open in April. Sown in July and August will make good plants for the next spring.

* **Gill's Oregon Giant**—After careful tests we are convinced that this strain of pansies produces the largest flowers and the best variety of colors of any strain we know of. If you want the very best and largest pansies plant this mixture. While the seed is more expensive than the common sorts you will feel well repaid to plant it. Pkt., 25c.

PANSIES—Continued.

Gill's Giant Mixture—Grown by ourselves from larger flowering sorts. This is a reliable mixture of many good colors. Pkt., 10c.

***Tufted Pansies, mixed**—While the blooms are small they make a mass of bloom all summer. This mixture contains a great variety of shades. Pkt., 10c.

PENTSTEMON.

Sensation.—This takes rank with petunias and phlox as a bedding plant. This strain embraces a wide range of color, including rose, red, carmine, cherry, pink, lilac and purple. Grows 2 feet high. Not quite hardy and should be covered in winter. Pkt., 10c.

PETUNIA.

Defiance Largest Flowering—Flowers often five inches in diameter, fringed, with open throats. Colors varied and indescribable. For size and beauty, this is the best strain of petunias. Pkt., 20c.

Single Bedding Petunias.

Snowball.—Compact sort with satiny white flowers. Pkt., 10c.

Star Petunia.—Compact plants; cherry-red flowers with white center. Pkt., 10c.

Countess of Ellsmere—Pink with white throat. Pkt., 10c.

Blood Red—Pkt., 10c.

Mixed—Pkt., 5c.

PHLOX DRUMMONDI, ANNUAL PHLOX.

A beautiful annual that may be used for massing, beds, borders or pots. Sow in the open after danger of frost is over.

Select Large Flowering Varieties.

Large Flowering Mixed—Contains a great variety of colors and is sure to please. Pkt., 10c.

Separate Colors as follows: White, Deep Rose, Bright Scarlet and Primrose. Pkt., 10c.

Double Mixed.—Better for cutting than the single sorts. Finest mixed colors. Pkt., 10c.

POPPIES.

May be sown in the fall or early spring. Poppies are easy of culture and very effective flowers.

Single Sorts.

***Gill's Mixed Shirley**—All colors. Pkt., 5c.

Danish Cross—Scarlet with white spot forming a cross. Pkt., 5c.

The Bride—Pure white. Pkt., 5c.

Admiral—White with band of scarlet around the top. Pkt., 5c.

Tulip Poppy—This is one of the finest bedding poppies we have ever seen. It grows from 15 to 20 inches high and is simply a blaze of bright scarlet tulip shaped flowers. A splendid sort for bedding or massing. Pkt., 5c.

Double Sorts.

Cardinal—Fringed flowers, cardinal red. Pkt., 5c.

Fairy Bush—Elegantly fringed, white, tipped rose. Pkt., 5c.

Shell Pink—Soft sea shell pink. Pkt., 5c.

White Swan—Immense fringed flowers, white. Pkt., 5c.

Carnation Flowered—Double, fringed, mixed colors. Pkt., 5c.

Mexican or Prickly Poppy.

Plants 2 to 3 feet high, spiny foliage, large flowers in shades of yellow and white. Pkt., 10c.

Giant Yellow Tulip Poppy.

Fine for cutting, large, butter-cup yellow flowers. Pkt., 5c.

Perennial Poppies.

Iceland Poppies—Mixed colors. Pkt., 10c.

Oriental Poppies—Deep crimson, with black blotch. Pkt., 10c.

PORTULACA, SUN PLANT.

A fine hardy annual, doing best in a rich loam or sandy soil. Fine for massing in beds, edging or rock work.

Single Mixed.—Containing rose, scarlet white, yellow, etc. Pkt., 5c; oz., 45c.

Double Mixed.—A large per cent come double; in similar colors to the single mixed. Pkt., 10c; ¼ oz., 50c.

PYRETHRUM.

Golden Feather.—Yellow foliaged plant used for edging and bedding.

Pkt., 5c; ¼ oz., 20c.

Hybridum.—Large flowering, single mixed. Hardy perennials bearing daisy-like flowers in various shades of pink, red and white. A fine cut flower. Pkt., 10c.

RUDBECKIA, ANNUAL.

Bicolor Superba.—Forms a dense bush producing flowers in great abundance. The disc is brown, the florets golden yellow. Fine for cutting. Pkt., 10c.

SALPIGLOSSIS.

Sow indoors for early, or can be sown outside after danger of frost. **Large flowering mixed.** Pkt., 10c.

SALVIA.

Sow indoors in March, plant out in May.

Splendens—Bright scarlet, 3 feet. Pkt., 5c.

Patens—Intense blue flowers. Pkt., 15c.

SCABIOSA OR MOURNING BRIDE.

Sow outside after danger of frost.

Large Flowering Mixed—Pkt., 5c.

Separate Colors—White, Crimson, Black-purple, Rose. Pkt., 10c.

SHASTA DAISY.

Alaska.—The popular evergreen perennial, with single flowers, often 5 inches across, of purest glistening white. A splendid cut flower. Pkt., 15c.

SNAPDRAGON.

An old fashioned flower that has come back into popular favor again. For early flowering, sow seed in the fall and then set out in the spring, or the plants may be started in the spring.

Separate Colors as follows: Giant White, Giant Scarlet, Giant Yellow, Giant Garnet, Giant Pink at 10c per pkt.

Gill's Superior Mixed—This mixture contains a great variety of colors and will give good satisfaction. Pkt., 5c.

STOCKS.

A popular biennial. Fine for bedding or pot culture. May be started early inside or plant seed in the open after danger of frost is over. The varieties offered below will produce about 90% double flowers.

Improved Large Flowering Ten Week Stocks.

These are a superior large flowering strain. Separate Colors as follows: Blood Red, Pink, Purple, at 10c per pkt.

Large Flowering Mixed—A grand mixture of double flowered sorts. Pkt., 10c.

SUNFLOWER.

New Miniature Mixed—Numerous small flowers. Pkt., 10c.

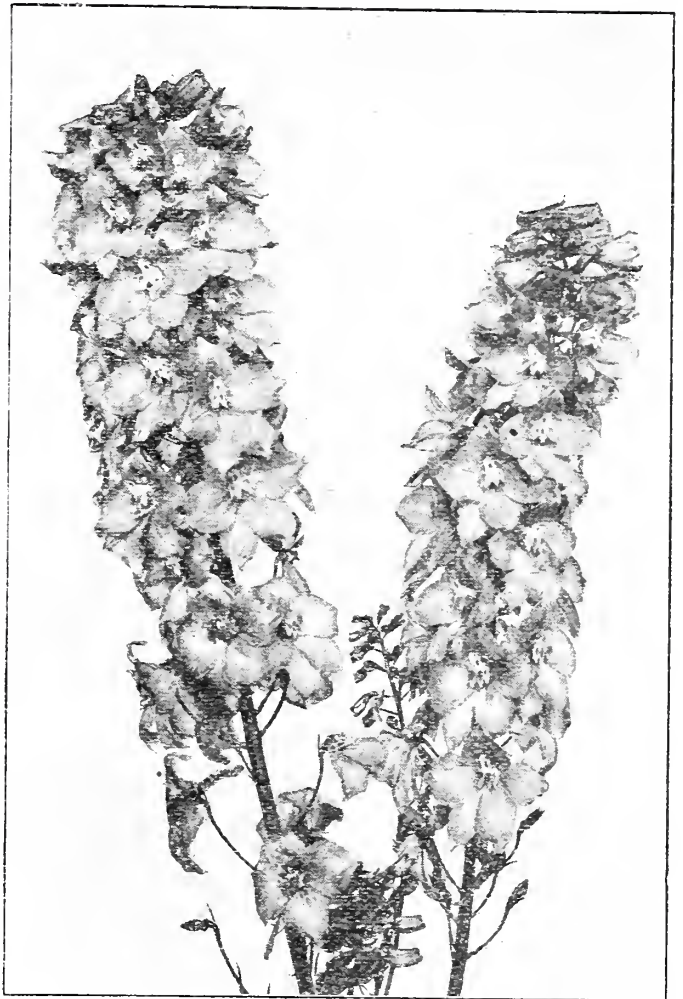

Chrysanthemum Flowered—Double, rich golden yellow. Pkt., 5c.

SENSATIVE PLANT, MIMOSA.

A curious annual, its leaves close when touched or if the stem is touched the whole leaf will fall. Can be grown in pots or in the open. Pkt., 5c.

SWEET ROCKET.

An old fashioned hardy biennial, growing from 2 to 3 feet high, bearing fragrant blossoms of white, lilac and purple, about the latter part of May. A long keeping cut flower. Easy to grow from seed. Pkt., 5c.

Delphinium. See Page 41 for Plants

SWEET PEAS

Sweet peas are today considered one of the leading flowers. Can be planted in trenches in November, covering lightly with soil or pulverized manure. This method will produce flowers in June. Spring sowings should be made as early in the spring as the ground can be worked, even February is not too early. The Spencer type is by far the best, being large, free blooming and more artistic.

SPENCER SWEET PEAS. Novelties In Sweet Peas.

Agricola.—Pinkish heliotrope over white ground, edged dark heliotrope; large.

Pkt., 15c; oz., 50c.

Dobbies Cream—Large deep cream. Best cream.

Pkt., 15c; oz., 50c.

Miriam Beaver—Best novelty of the year. Soft shell pink on cream ground, overlaid with hydrangea pink.

Pkt., 15c.

Barbara—Extra large; best salmon.

Pkt., 15c; oz., 50c.

Hercules—Largest and best clear rose pink.

Pkt., 10c; oz., 50c.

Wedgewood—Large; best blue Spencer.

Pkt., 10c; oz., 50c.

Asta Ohn.—Charming soft lavender.

Apple Blossom.—Color of apple blossoms.

Burpee's White Spencer.—Waxy white, of large size.

Capt. of the Blues.—Pure purple, margin marbled.

Countess Spencer.—Soft rose pink.

Flora Norton.—Best light blue.

King Edward Spencer.—Deep crimson scarlet.

Mrs. Routzahn.—Apricot ground, suffused with delicate pink.

Othello.—Rich deep maroon.

Primrose Spencer.—Primrose yellow.

Sterling Stent.—The best deep salmon color.

Vermilion Brilliant.—New brilliant scarlet of splendid form. Standard bold and beautifully waved.

Prices.—Any of the above Spencers at 10c per pkt; oz., 30c.

*Gill's Progressive Mixture—This Spencer mixture of our own raising will give the best possible results since the seed is acclimated. A general variety of colors are included in the proper proportion.

Pkt., 10c; oz., 25c; ¼ lb., 75c.

*Gill's Rainbow Mixture.—We feel confident this grand mixture of our own growing, contains more shades than any mixture sold. For years we have been securing mixtures from different houses, and growing them together. It contains many Spencer peas. Visitors who saw them in bloom said they had never seen so many colors in one mixture, nearly 100 different shades being in evidence. We have many fine reports from this seed.

Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c, postpaid.

SWEET WILLIAM.

This hardy biennial is one of the best cut flowers and is again coming to the front.

Separate Colors as follows in single sorts: White, Crimson, Maroon and Scarlet at 10c per pkt.

Single Mixed—All colors. Pkt., 5c.

Double Mixed—Quite a portion will come double. Pkt., 10c.

TAGETES.

Highly scented border plant, dwarf and compact, loaded with bright golden flowers. Pkt., 5c.

THUNBERGIA BLACK EYED SUSAN.

Rapid growing annual climber, preferring a warm situation, useful for hanging baskets, vases, low fences, etc. Buff, white, orange, etc., with dark eyes. 4 feet. Mixed colors. Pkt., 5c; $\frac{1}{4}$ oz., 25c.

VERBENAS.

We carry a fine strain of mammoth verbenas which have been improved and selected for years. Sow inside and set out in May or they may be sown outdoors in May and will bloom about August.

Separate Colors as follows: Pink, Purple, Scarlet, White and Blue. Each 10c per pkt.

Mammoth Mixed—Large flowers, all the colors. Pkt., 10c.

VINCA.

Ornamental free flowering plants fine for bedding. Sown outdoors in May will bloom in August.

Mixed—Pkt., 5c,

Pure White—Pkt., 10c.

WALL FLOWERS.

Half hardy perennials blooming early in the Spring.

Single Mixed—All the colors. Pkt., 5c.

Double Mixed—A fine selection. Pkt., 10c.

Goliath. — A splendid single variety; flowers of a rich, shining red, with black velvety sheen. Pkt., 10c.

ZINNIAS.

An old fashioned flower, much improved and which should be more planted. May be started early inside or planted outdoors in May.

Our giant flowering strain make gorgeous beds. Don't fail to plant Zinnias for they are very popular again.

Giant Double Flowering—Mixed. Pkt., 10c.

Giant Scarlet—Pkt., 10c.

Giant Golden Yellow—Pkt., 10c.

Giant Crimson—Pkt., 10c.

Giant Flesh-color—Pkt., 10c.

Large Flowering Mixed—Pkt., 5c.

FLOWER SEED COLLECTION.

10 Pkts. Flower Seed 20c, postpaid.

Ten packets, our selection, each one different, all easy growing sorts. Don't overlook this offer for the value will surprise you.

GILL'S DANDY DAHLIA COLLECTION.

We offer in this collection a mixture of bulbs which are untagged but represent good Dahlias and for those who are not particular to have the names they will give fine satisfaction. These will be put up in advance and no selections other than our own can be permitted. Price for box of 12 good strong bulbs, \$1.00; 6 for 60c, postpaid.

GILL'S SELECT GLADIOLUS

PRICES given are postpaid. 50 at 100 rate. We offer first size bulbs.

For Cannas see page 20.

Gill Bros. Blue Ribbon Dahlias

Won Grand Sweepstakes at National Dahlia Show.

We are the largest dahlia growers west of the Mississippi River, and have established a reputation for good, reliable stock that is true to name and now fill orders for dahlias all over the United States. Our soil produces solid, vigorous bulbs that are, owing to their acclimation, far superior to eastern stock.

The dahlia is fast becoming the leading flower. This is due largely to their easy culture, freedom of bloom and great variety of colors and formation. There are no flowers that can equal them for decorative effects.

We made dahlia displays last Fall at the National Dahlia Show at Portland, and also at Salem and Gresham, Ore., and Vancouver, Wash. Read our guarantee below.

CULTURE.

We publish a leaflet giving the history, classification and culture of the Dahlia which we will send free to all asking for it and will also include one with each order of Dahlias.

The proper time to plant Dahlias depends considerably upon the soil and location, but generally from April 20th to May 20th is the best season. Too early planting should be avoided as the tendency is to produce an early season of bloom, thus ripening the plants before the Fall season, the time most desirable for their best display. This does not apply to the conditions along the coast where cool breezes make the summer a good blooming season. Here the bulbs may be planted earlier than stated above.

The bulbs should be placed about five or six inches deep, on a slight angle, but almost flat, the eye or sprout uppermost. When the sprouts have made few inches of growth above ground, remove all but one, the strongest. The size of the bulb planted is not material, if it has a good eye. For complete culture, get our leaflet.

PRICES.

The prices on all dahlias offered include postage or express, which we prepay.

OUR GUARANTEE.

We guarantee all the bulbs we send out to grow and to be true to name. In case of dahlias not growing they must be returned to us by July 1. of the season when purchased, with our labels attached. Sometimes bulbs are slow to sprout, but if at the end of 20 days they have not done so, remove the earth carefully from the bulb and if still dormant, return it to us; we can then send you another at once; however, if it reaches us too late for planting that season we will book the order for refilling the season following.

Flowers considered untrue to name should be sent to us by parcels post for verification. Any extras we may include free in orders are not subject to the above guarantee.

DAHLIA ORDERS.

Will be filled during April, May and June, but may be sent to us at any time for booking, and will be filled in the rotation received. Orders for dahlias of \$10 or more may select 10% of the amount extra in dahlias as a premium.

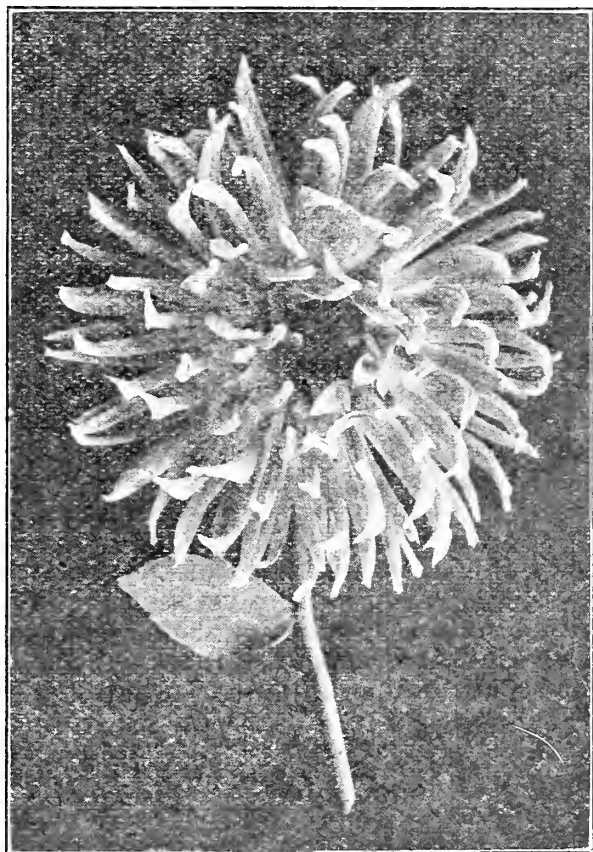

GILL'S DAHLIA COLLECTIONS.

Since it is impossible for us to gage the amount of sales upon any variety in advance we often have a surplus of Dahlias left in very good sorts. This enables us to make the remarkably low rates on collections given below. These bulbs will be labeled with their correct name and no two alike, chosen with regard to color, however they must be entirely our own selection.

No. 4—12 Peony Dahlias, \$1.75; 6 for \$1.00.

No. 5—12 Cactus Dahlias good standard sorts \$1.50; 6 for 85c.

No. 6—12 New Cactus Dahlias comprising late introductions, \$3.00; 6 at \$1.75.

Dahlia Rheinischer Frohsinn

No. 7—12 Decorative Dahlias, \$1.25; 6 for 70c.

No. 8—12 Show Dahlias for \$1.25; 6 for 70c.

No. 9—6 Single Dahlias postpaid for 75c.

No. 10—6 Collerette Dahlias postpaid for 75c.

No. 11—12 Mixed Dahlias, New Varieties in all classes, \$2.50; 6 for \$1.40.

No. 12—6 Pompon Dahlias postpaid for 60c.

No. 13—Mixed Dahlias, a general mixture containing all classes, 12 for \$1.25.

OTHER DAHLIA COLLECTIONS

Other Dahlia Collections will be found on pages 27 and 37.

Dahlias Introduced by Gill Bros. 1916

Ephraim Gill.—Hybrid Cactus. In introducing this dahlia, named in honor of our father, we believe we are giving to the public the best novelty we have yet introduced. This is a seedling of the Geisha, and has the strong, vigorous growth of its parent; if anything, the plant is more upright and better shaped. The enormous blooms, often 9 inches across, are deep golden amber, suffused with orange, and are held upright on strong stems. This dahlia won sweepstakes among all seedlings shown at the National Dahlia Show at Portland, and created a sensation there by its great size, attractive color and form. Our stock of bulbs is limited, and we must charge the following price.

Each, \$3.00.

Panama.—Peony. This enormous deep golden yellow dahlia is a seedling of Cleopatra. We had blooms last Summer 9 inches across. It is one of the freest-blooming large dahlias we know of, and the formation of its blooms is quite distinct. It is a strong, vigorous grower and makes a good appearing plant. Each, \$1.50.

Oneonta.—Peony. In this we offer a very distinct dahlia, the color being a deep bronze-red marked on the edges and tips of the petals with deep yellow. The color reminds one of the colors seen in volcanic rock where the red and yellows blend together. The habit of growth is tall and upright and the shapely bushes are simply loaded with large blooms carried on good stems. Named after Oneonta Gorge on the Columbia River Highway. Each, \$1.50.

Miss Kathryn Buttle.—Peony. This variety has large flowers on good stems, and is a very prolific bloomer. The color is rich wine crimson with a distinct large yellow halo around the center of the flower. This flower was much admired in our gardens last Summer. Each, 75c.

Brilliant.—Show. In describing this dahlia the word "brilliant" nearly tells the story, for there are few if any red dahlias that can equal the brilliant red of this flower. The plant is upright and strong and is covered with good-sized blooms on perfect stems. Many of our customers who generally refused show dahlias, ordered this last Summer. Each, 50c.

DAHLIAS INTRODUCED BY GILL BROS. IN 1915.

Richard M. Buttle.—This grand new peony flowered dahlia is a seedling from the Geisha and is named in honor of Richard M. Buttle, of Seattle, president of the National Dahlia Society. Hundreds of visitors who saw it blooming in our show gardens last season pronounced it better than the Geisha. Its habit of growth is taller and more regular, with better stems, and it is freer of bloom. Its color is a bright golden orange lightly suffused with scarlet. The color is deeper when first opening out and gradually takes on a golden tone. Each, \$1.00.

Autumn Gold.—In this beautiful new peony dahlia we offer one of the freest large flowering dahlias we have yet seen. The name aptly describes its color—a blending of red and yellow into a splendid Autumn shade. The blooms are immense in size, often over eight

inches across, and held on good stems.

Each, 50c.

Mrs. Helen Ladd Corbett.—This dahlia has created a great sensation by its unusually beautiful color—a beautiful soft pink faintly tinted with lavender. The flowers are held on extra long stems and its keeping qualities as a cut flower are remarkable. It is a strong grower and free bloomer. This variety is the best of a collection of seedling grown by Mrs. Helen Ladd Corbett's private gardener, Mr. Watkins. Stock very limited. Price \$1.00 each.

Newport, Gill's.—The outer portion of the flower is a beautiful sweet briar pink, while the center is a bright deep rose, making a handsome contrast. The stems are good and its keeping qualities are excellent. It is somewhat dwarf of growth and always full of bloom. Each, 35c.

OTHER VARIETIES ORIGINATED BY GILL BROS.

Gill's Poinsettia.—Very distinct from any sort ever introduced. The shape and color of the petals resemble very much that of the poinsettia leaf after which it is named. There are usually two rows of bright scarlet petals which are brought into brilliant contrast by a rich, golden yellow center. This is the most brilliant colored dahlia we have ever seen and is destined to become a leading sort wherever dahlias are grown. For garden effect and for hedges this dahlia has few, if any, equals, as it is simply a mass of bright scarlet bloom throughout the season. Each, 35c.

Coquille.—Decorative. This is one of the best yellow decorative dahlias to date. The immense, deep lemon yellow flowers are carried on good stems. The plants are of handsome appearance and are exceptionally free blooming. Each, 25c.

Clackamas.—Peony. One of the freest blooming dahlias in our field, simply a mass of bloom throughout the season. Large orange scarlet blooms on good long stems. Each, 25c.

Gearhart.—Decorative. Sturdy, upright plants of handsome appearance. Flowers carried erect on strong, stiff stems. The flowers are ivory white, suffused at the base with lemon yellow and tipped and veined with light lavender. This is a very fine flower either for cutting or garden effect. Each, 35c.

Tillamook.—A companion to that grand old Dahlia, Grand Duke Alexis, it differs in color, being a delicate blush, deepening at the tips to rose pink. Its pleasing color, combined with its large size and free blooming habit will make this a prize winner. Each, postpaid, 25c.

Molalla.—Show. Free flowering dahlia, simply loaded with perfect ball shaped blooms of lemon yellow tipped with white. Effective cut flower. Each, 20c.

Netarts.—Show. Perfect ball-shaped blooms of large size, carried erect on good, strong stems. Ground color white, dotted and penciled with purplish crimson. Each, 20c.

Oregon Beauty—Peony A giant in size; often 8 inches in diameter, it combines with its rare color, which is a bright fiery scarlet, overlaid with a golden sheen, the most distinct form of any Dahlia yet introduced. The opening flower is like a full decorative bloom, of a deep fiery scarlet; when fully out the color is a shade lighter, a portion of the older petals curving towards the stem, the newer petals coming out nearly flat, giving it a peony form. One of the finest cut flower dahlias yet introduced and wherever exhibited it has been enthusiastically received. Each, 35c.

Splendid—This is a single Dahlia similar to the Twentieth Century, but of a far richer color, being a deep rich crimson marked at tips with white. This attracted much attention in our grounds last summer. Each, 25c.

Mt. Hood.—Decorative. For years one of the most difficult dahlias to find has been a clear, snow-white colored variety, one that possessed no greenish or cream tint and we now offer this handsome new sort, which we consider the whitest of all dahlias.

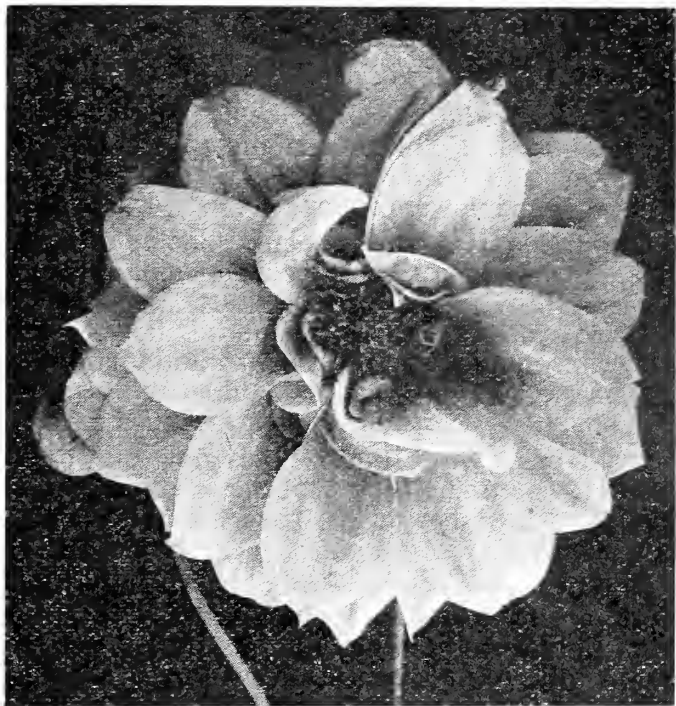

The flowers are of good size and perfectly double and are borne freely on strong, upright stems. Its clear, snow-white color and its many other good points are bound to make this a very popular sort. Each, 50c.

Yaquina.—Decorative. Deep, rich scarlet, occasionally marked and tipped with rose carmine. Remarkable for its free blooming qualities and on account of its long stems is especially valuable for cutting. Each, 25c.

Nehalem.—Decorative. Immense blooms entirely distinct. The color is hard to describe, a peculiar shade of rich crimson. The petals are curled and twisted giving a novel effect to the large, perfectly double blooms. The plants are of medium height, well proportioned and covered with bloom. Each, 35c.

Spirit of the Golden West—Show. In color a deep saffron yellow, tipped and overlaid with the rich rosy red of the sunset. Flowers of good size, full and double and held boldly up on long, stiff stems. It will last a week as a cut flower. Each, 25c.

Yellow Beauty.—Show. One of the best yellow show dahlias to date. The large blooms are of a deep golden yellow and carried erect on good stems. Fine for cutting. Each, 15c.

Dahlia, Gill's Newport

Multnomah.—Decorative. The center is clear yellow, shading to orange, tinted with rose. The petals are broad and curve to the stem, making a full globular flower. Makes a fine bushy plant loaded with these large blooms. One of the best of its color. Each, 25c.

Crazy Quilt—Decorative. One of the oddest Dahlias ever introduced. Hardly two flowers come alike; some are pure sulphur yellow, some yellow with white centers, others pure white, some white with yellow collar and again others white with yellow markings through each petal. Each, 15c.

J. J. Johnson—Show 1912. One of the freest flowering Dahlias in our whole grounds. The flowers are a rich maroon occasionally marked with garnet, sometimes coming a carmine rose. The plant is dwarf and bushy and every flower is produced on extra long stems that lift them free above the foliage so that every flower shows. This is a splendid cut flower and fine also for massing. Each, 25c.

Garnet Queen—Peony 1913. A fine garnet colored Peony Dahlia. While the plants are rather dwarf they are simply loaded with graceful, artistic flowers held on good long stems. As a cut flower it has few equals. Its color is a deep, glossy garnet. Each, 20c.

Special Collection Offer.—We will send postpaid one each of the Dahlias originated by us except those introduced this year, worth \$7.50, for \$5.00.

GILL'S NEW AND SPECIAL MERIT DAHLIAS

This list contains the newest and best exhibition flowers.

Abbreviations are as follows: P., Peony; D., Decorative; C., Cactus; H. C., Hybrid Cactus; S., Show; Pom., Pompon.

America—Peony. Free-flowering dahlia with ideal stems, pure shrimp-pink with golden suffusion. This is a grand acquisition to this class. Each, 75c.

Avalanche—D. Immense, new white decorative. A very fine novelty. Each, \$1.00.

Beloit—Hybrid Cactus. Every year this dahlia has increased in favor. Its gigantic blooms are held on exceptionally long, stiff

stems and the color is a deep, rich, purplish garnet with crimson suffusion. A strong, vigorous grower that should be in every collection. Each, 50c.

Bertha Von Suttner—Peony. One of the best peony dahlias yet introduced and created a sensation in our gardens. Color, salmon-pink, shaded yellow, flowers very fluffy and artistic, often eight inches in diameter. Each, 60c.

Calypso—D. Large flowers, rich dark, purplish-crimson; petals curled and twisted; long strong stems; sometimes shows peony center.

Each, 50c.

Chatenay—P. A beautiful soft pink, blended with salmon. Color of chatenay rose; one of the best cut flower dahlias yet introduced. Medium sized flowers on long stems. Each, 50c.

Chief Seattle—P. Immense blooms of delicate silvery pink, held erect on long, strong stems. This is a splendid new sort. Each, 75c.

Conquest—Cactus. Immense flowers of rich crimson maroon. Petals long and incurved. One of the best dark cactus dahlias and a prize winner at the Portland show. Each, 60c.

Dr. Henry Sewell—P. This novelty has a distinct coloring, the petals are pink fawn shaded with amber at the base. Large flowers on good stems. Each, \$1.25.

Dr. Peary—Peony. Probably the darkest of all peony flowered dahlias, a giant in size, often 10 inches in diameter. This free-flowering dahlia will create a sensation wherever shown. Each, 50c.

Duchess of Brunswick—P. Large flower 8 to 9 inches across, on strong stems, color distinct; red, shaded apricot. Each, \$1.25.

Duchess of Marlboro—Cactus. Large, perfect blooms of a beautiful tint of solferino, backed by a golden suffusion at the base of the petals. Remarkably free-blooming dahlia of great merit. Each, 75c.

Etendard de Lyon—Hybrid Cactus. Broad, curled, wavy petals; flowers often seven inches in diameter, in color a rich carmine rose bordering on a magenta shade. Each, \$1.00.

Florrie Wells—C. New. Straight stiff petals of a peculiar shade of rosy crimson. Good shaped blooms. Each, 75c.

Frances White—C. Pure white petals, long, narrow and twisted. Full, deep blooms of good size. Each, 75c.

Fritziman—P. Best variegated peony; brilliant geranium red, usually variegated with white stripes and markings. Each, 50c.

F. W. Fellows—C. The largest true cactus dahlia we have seen. Long, narrow, straight petals of orange-scarlet; flowers carried on good stems. Each, \$1.00.

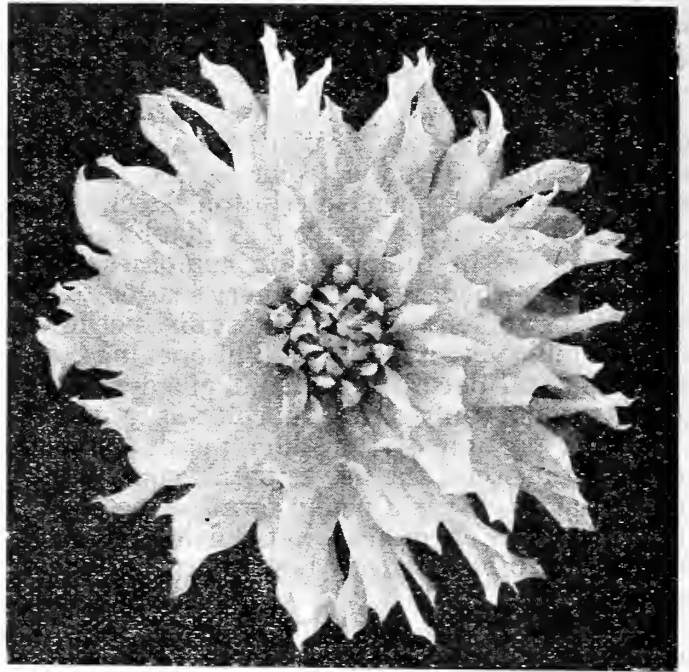

Garibaldi—New. H. C. Immense flowers of orange-scarlet carried on long, strong stems. This production direct from Holland is one of the best novelties of the year. Each, \$1.50.

Geisha—Peony. No garden is complete without one of these gigantic flowers; probably unequaled in size by any other dahlia; we grew some last season nearly ten inches across. The center is yellow, shading to variations of scarlet and gold; as the season advances they become clear yellow. The petals twist and curl, giving it a graceful, fluffy appearance. Each, 50c.

Gen. Miles—S. Largest of the show dahlias; light violet pink, striped and spotted with purplish magenta. Each, 50c.

Giant Purple—S. This giant is a seedling Le Colosse, and its lively royal purple color makes it very attractive. Each, 75c.

Glory of Nijkerk—P. Large, purple flowers, shaded maroon. Makes a shapely bush and carries its blooms on long, strong stems. Each, 50c.

New Dahlia, Mrs. Warnaar

Gwendoline Tucker—C. Very large, incurved flower of silvery pink, held on erect stems. Exceptionally fine flower. Each, 50c.

Holman Hunt—P. Strong, healthy grower, producing extra large flowers; deep, rich crimson, shaded with maroon. Each, 75c.

Hortulanus Feit—Decorative. A monster in size, yet its color and formation suggest no coarseness. The color is a delicate shade of shrimp-pink, the tip of each petal barely touched with gold. The size is immense and the blooms are carried erect on strong, stiff stems. Each, 50c.

Imperator—D. Large blooms formed of slightly quilled petals. Color, ivory-white, faintly touched with rosy mauve. Each, 75c.

J. K. Alexander—S. Another giant seedling of Le Colosse. Violet purple; free flowering. Each, \$1.00.

Johannesburg—New Cactus of immense size and fine form; bright gold, with glittering sheen in the sunlight. Fine exhibition sort. Each, 50c.

Kackadee—P. Lemon yellow, shading to white at the tips, large flowers on good stems, plant rather dwarf. Each, 75c.

Kalif—H. C. This is probably the largest flowered cactus dahlia yet introduced. It is an exceptionally strong grower and the flowers are produced very freely and carried on strong, erect stems. The color is a pure scarlet, very rich and glowing. Stock limited. Each, \$1.00.

Leo XIII—P. Immense blooms, of deep canary yellow; free flowering. Rather full flowers on good stems. Each, \$1.00.

Marathon—Cactus. A large brilliant, rich purple. The best purple cactus we have seen. Each, 35c.

Master Paul—D. This seedling from Jeanne Charmet is large and more double than its parent and has a better color. The double, large blooms are a delicate pinkish-lilac, shaded white. Borne on strong stems. Each, 75c.

Masterpiece—D. A gigantic flower of clear, rich tango without shadings, borne on good long stems. A splendid dahlia. Each, \$1.00.

Matador—P. Large flowers on good stems, terra-cotta, suffused with rosy lake. Very distinct flowers. Each, 50c.

Minnie Burtle—D. The finest cut flower dahlia yet produced. Gigantic blooms often 9 inches across carried on long, strong, erect stems; color deep, rich crimson. Each, 60c.

Miss Violet Beamish—P. Large, graceful flowers; beautiful shade of heliotrope, with silvery reflex. Strong stems. Each, 75c.

Mme. Marze—D. Immense, pure white flowers, very double and carried on erect stems. Free flowering. Each, 50c.

Mondscheibe—P. The finest yellow peony dahlia. See cut on front cover. The extra large blooms are deep canary yellow and are carried on long, strong, erect stems. Very free flowering. Each, \$1.00.

Mrs. C. G. Wyatt—Cactus. One of the best white cactus. Numerous long, incurved petals form a flower of great depth and size. Each, 75c.

Mrs. C. H. Breck—H. C. A very attractive dahlia, creamy yellow passing to various shades of rich rose. Large flowers on good stems. Each, 50c.

Mrs. Douglass Fleming—Cactus. A large exhibition dahlia with white flowers composed of very long tubular petals. Each, 60c.

Mrs. J. C. Vaughn—H. C. Bright, clear, yellow flowers, 8 inches across with incurved, irregular florets of the Hybrid Cactus type. Good stems. Each, \$1.50.

Mrs. Warnaar—H. C. Immense, white flowers, suffused with delicate pink, petals incurved and irregular. One of the best novelties of the season. Stems very strong and erect. Each, \$1.50.

Nancy Mae—H. C. Intense scarlet with maroon shadings; free flowering; ideal cut flower. Each, 50c.

Nevada—D. A beautiful, pure white dahlia of good size, splendid cut variety; free flowering. Each, 50c.

Nibelungenhort—German Cactus. Exceptionally large and one of the most beautiful dahlias ever introduced. The slightly incurved petals are a beautiful shade of old rose with golden apricot suffusion. Each, \$1.00.

New York—Cactus. A massive flower with regularly incurving petals, borne on strong stems. The habit of the plant is perfect. Color orange yellow in the center, shading off to deep bronze salmon. A splendid exhibition sort. Each, 60c.

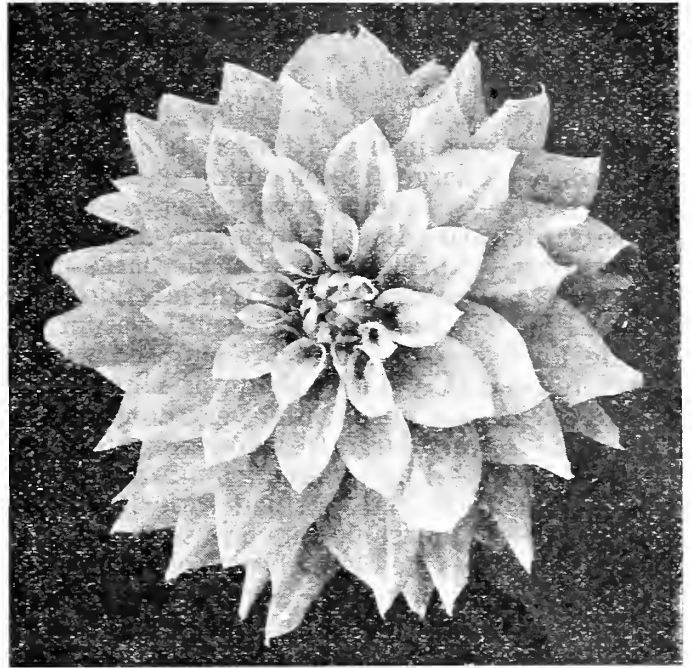

Olympic—Cactus. Massive deep rich crimson flower, much incurved. Each, 75c.

Paul Bonyon—D. Handsome plants bearing profusely of beautiful large blooms, carried on erect stems; salmon pink with luminous golden sheen. Each, 50c.

Pembroke—Peony. An immense flower of bright carmine, shaded white. Exceptionally free flowering. Each, 50c.

Princess Angeline—D. A free flowering dahlia, covered with beautiful cerise blooms, carried on strong stems. Each, 60c.

Rheinischer Frohsinn—Cactus. One of the best novelties. The flowers are large, of splendid form, the long incurving petals are white at the base, but at about one-half of their length they become suffused with a luminous carmine rose, making a very striking flower. The habit of growth is splendid and stems are strong and upright. Admired very much. Each, 60c.

Dahlia, Hortulanus Fiet

Rosenymphe—H. C. Although not large this flower is very dainty and is exceptionally fine for cutting; color, delicate flesh shading to soft rosy white. This and Sirene are fine companion flowers for cutting. Each, 50c.

Sirene—H. C. Very similar to Rosenymphe, except color; beautiful rosy pink shading nearly white in center. Each, 50c.

Suzanne Cayeux—Cactus. An exceptionally large creamy white, with long, narrow, incurving petals. A strong grower and free bloomer. Good stems. Each, 50c.

Sweet Briar—Cactus. Every one who saw this flower was charmed with its exquisite sweet briar shade of pink. A coming favorite and sure to please. Each, 50c.

Tenor Alfarez—D. Enormous free flowering dahlia, lilac-rose, striped and marked with crimson-purple; very distinct. Each, 35c.

The Lion—C. Large flowers, old rose suffused with yellow and salmon, free and effective, good stems. Each, 50c.

Wacht Am Rhein—C. Graceful, large flowers, on good stems for cutting; soft, light pink with white suffusion. A splendid novelty. Each, \$1.00.

Walkure—German Cactus. Immense flowers often over eight inches across. Sulphur-yellow deepening to a golden yellow at the center. Strong and vigorous, free flowering plants. Each, \$1.00.

Wodan—Cactus. Enormous blooms, often over seven inches in diameter; semi-incurved, tubular petals, of delicate salmon rose color, shading to old gold in the center. Each, 50c.

Wolfgang Von Goethe—Large, gracefully arranged, perfect flowers of a rich apricot, with carmine shadings. Each, 35c.

W. W. Rawson—Show. Large quilled flowers often seven inches in diameter, born on erect stems. Color pure white, overlaid with a lavender blush. Each, 50c.

Yellow King—H. C. Another Holland novelty of great merit. Large elegant flowers on long stiff stems; color, clear yellow, shading lighter at the tips; petals very beautifully formed. Each, \$1.50.

Gill's General List of Dahlias

CACTUS AND HYBRID CACTUS.

Those marked H. C. are Hybrid Cactus.

Advance—Large incurved flower, long petals, light red suffused with yellow at base.....	\$0.35

GILL'S NEW AND STANDARD ROSES.

The roses we offer are good, strong plants and have good fibre roots for starting. We do not handle stored bushes, our orders being filled right from our nursery. We guarantee them true to name and will replace or refund on any not coming so. We are not responsible for plants dying after being set out, since plants will be sent out in good condition, and if they do not arrive so, you should notify us at once.

NOTE.—Letters after names stand for classes of roses as follows: T., tea roses; H. T., hybrid tea; H. P., hybrid perpetual.
